# KY-210 Improvement Project

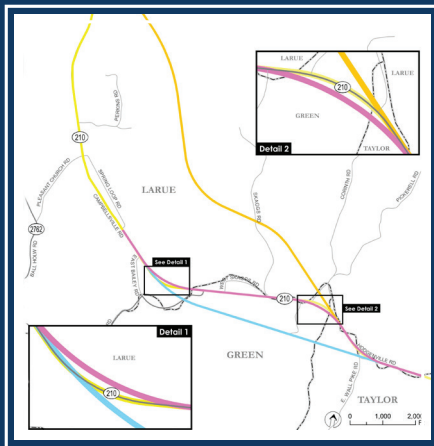

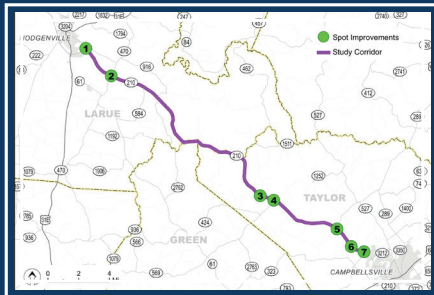

KYTC Item No. 4-80154  
Larue, Green & Taylor Counties

## PROJECT STATUS UPDATE

Following the recent public outreach effort for the subject project, the design team met to review the project purpose and need, public input, environmental studies, traffic operations, safety analyses, and estimated costs. The **PREFERRED ALTERNATIVE** to best address the needs of the corridor would include:

- **ALTERNATIVE 1:** 2+1 Widening for the entire 24.5-miles between Hodgenville and Campbellsville
- **SECTION 2, OPTION 2** (pink alignment in the image bottom right): 2+1 on existing with curve improvements in the previously unimproved section near the LaRue/Green county line.
- **ALL 7 SPOT IMPROVEMENTS** (image top right)

These combined improvements exceed the current six-year highway plan construction budget of \$22 million, with an estimated cost of \$52.8 million. Additional funding would be required to advance the complete project. Spot improvements or segments of widening may advance independently. No construction is planned at this time, design plans are being further developed.
