**KENTUCKY TRANSPORTATION CABINET
SMALL BUSINESS ENTERPRISE (SBE) PROGRAM ELIGIBILITY**

Thank you for your interest in participating in the Kentucky Transportation Cabinet's (KYTC) Certification Program to become a Small Business Enterprise (SBE). Our objective is to ensure that disadvantaged business firms have the maximum opportunity to participate in US DOT-assisted contracts.

KYTC's Small Business Development Branch, within the Office for Civil Rights and Small Business Development, certifies firms that are owned and controlled by one or more economically eligible citizens or lawful permanent residents of the United States, and any other individual determined to be economically eligible by the Small Business Administration pursuant to Section 8(a) of the Small Business Act. A business or firm must meet the definitions specified in Section 3 of the Small Business Act and the Small Business Administration regulations implementing it (13 CFR Part 121). KYTC defines a small business as a business that is independently owned and operated, organized for-profit and not dominant in its field. Depending on the industry, size standard eligibility is based on the average number of employees for the preceding 12 months or on sales volume averaged over a three (3) year period.

SBE certification affords small businesses an opportunity to participate in the performance of contracts and subcontracts financed in whole or in part, with federal funds, which are in the amount of two million dollars (\$2,000,000) or more.

All new applications received will be reviewed on a first-come, first served basis. It is the responsibility of the applicant to provide information deemed necessary by this department to ascertain eligibility.

KRS 517.120 states that a person, who knowingly establishes, assists in the establishment of, operates or assists in the operation of a sham or front company may be charged with a Class D felony.

Please note the following:

- (1) Cabinet personnel will conduct a desk audit of all documentation provided by the applicant firm.
- (2) Additional information may be requested in order to determine whether the applicant should be certified. Failure of the applicant to timely provide requested information shall be cause for this office to deny the application.
- (3) The DBE Liaison Officer and/or his/her designee shall issue a determination of eligibility within sixty (60) days of receipt of a completed application, provided a challenge of eligibility has not been received; and
- (4) All certified firms must be operational prior to application.

An Equal Opportunity Employer M/F/D

If your firm is approved for certification by the DBE Liaison Officer and/or his/her designee, it will be entered in the KYTC database. Only firms currently certified as eligible SBEs for KYTC may participate in the SBE program of US DOT grantees within the state of Kentucky.

Firms may still be certified as a SBE without being prequalified with the Division of Construction Procurement. However, in order to perform on KYTC highway construction projects to meet a SBE goal, SBE firms must be prequalified. Information regarding prequalification may be obtained by contacting the Division of Construction Procurement at (502) 564-3500.

While registration with the Kentucky Secretary of State's Office is not required for SBE certification, KRS 14A.9-010 does require firms to be registered and in good standing in order to do business in the Commonwealth of Kentucky.

Enclosed, please find the following SBE program documents:

- (A) SBE Certification Application with KYTC's SBE supporting documents checklist;
- (B) US Department of Transportation Personal Net Worth Statement;
- (C) US Small Business Size Standards (Updated as of 2016)

The application process begins when **all required documentation** has been received by this office. (*Refer to the KYTC SBE "supporting documents" checklist.*) In order to avoid unnecessary delays, please complete all portions of the Certification Application and include all copies of documents requested on the application, as well as, the KYTC SBE Application Supporting Documents Checklist. In addition, the Affidavit of Certification and the Personal New Worth Statement **must both be notarized.**

Firms that have questions, comments or need assistance with Kentucky certification are encouraged to contact the Small Business Development Branch at 1-800-928-3079 or (502) 564-3601.

Section 1: CERTIFICATION INFORMATION

A. Prior/Other Certifications

Check the appropriate box indicating for which program your firm is currently certified. If you are already certified as a SBE, indicate in the appropriate box the name of the certifying agency that has previously certified your firm, and also indicate whether your firm has undergone an onsite visit. If your firm has already undergone an onsite visit/review, indicate the most recent date of that review and the state UCP that conducted the review.

Indicate whether your firm or any of the persons listed has ever withdrawn an application for a DBE program, SBE program or an SBA 8(a) or SDB program, or whether any have ever been denied certification, decertified, debarred, suspended, or had bidding privileges denied or restricted by any state or local agency or Federal entity. If your answer is yes, indicate the date of such action, identify the name of the agency, and explain fully the nature of the action in the space provided.

B. Business Profile

- (1) In the box provided, briefly describe the primary business and professional activities in which your firm engages.

- (4) State the date on which you and/or each other owner took ownership of the firm.
- (5) Check the appropriate box that describes the manner in which you and each other owner

acquired ownership of your firm. If you checked "Other," explain in the space provided.

- (6) Check the appropriate box that indicates whether your firm is "for profit."

NOTE: If you checked "No," then you do NOT qualify for the SBE program and therefore do not need to complete the rest of this application. The SBE program requires all participating firms be for-profit enterprises.

- (7) Check the appropriate box that describes the legal form of ownership of your firm, as indicated in your firm's Articles of Incorporation. If you checked "Other," briefly explain in the space provided.
- (8) Check the appropriate box that indicates whether your firm has ever existed under different ownership, a different type of ownership, or a different name. If you checked "Yes," specify which and briefly explain the circumstances in the space provided.

If you answered "Yes," then specify the name of the other firm(s) and briefly explain the nature of the shared facilities or other items in the space provided.

- B. Ownership Interest**
- (1) State the number of years, during which this owner has been an owner of your firm.

In collecting the information requested by this form, the Department of Transportation complies with Federal Freedom of Information and Privacy Act (5 U.S.C. 552 and 552a) provisions. The Privacy Act provides comprehensive protections for your personal information. This includes how information is collected, used, disclosed, stored, and discarded. Your information will not be disclosed to third parties without your consent. The information collected will be used solely to determine your firm's eligibility to participate in the Disadvantaged Business Enterprise (DBE) Program or Airport Concessionaire DBE Programs as defined in 49 C.F.R. Parts 23 and 26. You may review DOT's complete Privacy Act Statement in the Federal Register published on April 11, 2000 (65 FR 19477).

General Instructions for Completing the Personal Net Worth Statement for DBE/ACDBE Program Eligibility

Please do not make adjustments to your figures pursuant to U.S. DOT regulations 49 C.F.R. Parts 23 and 26. The agency that you apply to will use the information provided on your completed Personal Net Worth (PNW) Statement to determine whether you meet the economic disadvantage requirements of 49 C.F.R. Parts 23 and 26. If there are discrepancies or questions regarding your form, it may be returned to you to correct and complete again.

An individual's personal net worth according to 49 C.F.R. Parts 23 and 26 includes only his or her own share of assets held separately, jointly, or as community property with the individual's spouse and excludes the following:

- Individual's ownership interest in the applicant firm;
- Individual's equity in his or her primary residence;
- Tax and interest penalties that would accrue if retirement savings or investments (e.g., pension plans, Individual Retirement Accounts, 401(k) accounts, etc.) were distributed at the present time.

Indicate on the form, if any items are jointly owned. If the personal net worth of the majority owner(s) of the firm exceeds \$1.32 million, as defined by 49 C.F.R. Parts 23 and 26, the firm is not eligible for DBE or ACDBE certification. If the personal net worth of the majority owner(s) exceeds the \$1.32 million cap at any time after your firm is certified, the firm is no longer eligible for certification. Should that occur, it is your responsibility to contact your certifying agency in writing to advise that your firm no longer qualifies as a DBE or ACDBE. You must fill out all line items on the Personal Net Worth Statement.

If necessary, use additional sheets of paper to report all information and details. If you have any questions about completing this form, please contact one of the UCP certifying agencies.

Table of Small Business Size Standards

Matched to

North American Industry Classification System Codes

This table lists small business size standards matched to industries described in the North American Industry Classification System (NAICS), as modified by the Office of Management and Budget effective January 1, 2012. The latest NAICS codes are referred to as NAICS 2012.

The size standards are for the most part expressed in either millions of dollars (those preceded by "\$") or number of employees (those without the "\$"). A size standard is the largest that a concern can be and still qualify as a small business for Federal Government programs. For the most part, size standards are the average annual receipts or the average employment of a firm. How to calculate average annual receipts and average employment of a firm can be found in 13 CFR § 121.104 and 13 CFR § 121.106, respectively.

SBA also includes the table of size standards in the Small Business Size Regulations, 13 CFR § 121.201. This table includes size standards that have changed since the last publication of 13 CFR § 121.

For more information on these size standards, please visit <http://www.sba.gov/size>.

If you have any other questions concerning size standards, contact a Size Specialist at your nearest SBA Government Contracting Area Office (list at the end of the table), or contact the Office of Size Standards by email at sizestandards@sba.gov or by phone at (202) 205-6618.

A firm’s “primary industry” is determined in accordance with 13 CFR § 121.107.
5. NAICS code 326211 – For Government procurement, a firm is small for bidding on a contract for pneumatic tires within Census NAICS Product Classification codes 3262111 and 3262113, provided that:
 - a) The value of tires within Census NAICS Product Classification codes 3262113 that it manufactured in the United States during the previous calendar year is more than 50 percent of the value of its total worldwide manufacture,
 - b) The value of pneumatic tires within Census Classification codes 30111 and 30112 comprising its total worldwide manufacture during the preceding calendar year was less than 5 percent of the value of all such tires manufactured in the United States during that period, and
 - c) The value of the principal product that it manufactured, produced, or sold worldwide during the preceding calendar year is less than 10 percent of the total value of such products manufactured or otherwise produced or sold in the United States during that period.

6. NAICS Subsectors 333, 334, 335 and 336 – For rebuilding machinery or equipment on a factory basis, or equivalent, use the NAICS code for a newly manufactured product. Concerns performing major rebuilding or overhaul activities do not necessarily have to meet the criteria for being a "manufacturer" although the activities may be classified under a manufacturing NAICS code. Ordinary repair services or preservation are not considered rebuilding.
7. NAICS code 336413 – Contracts for the rebuilding or overhaul of aircraft ground support equipment on a contract basis are classified under NAICS code 336413.
8. NAICS Codes 522110, 522120, 522130, 522190, and 522210 – A financial institution's assets are determined by averaging the assets reported on its four quarterly financial statements for the preceding year. "Assets" for the purposes of this size standard means the assets defined according to the Federal Financial Institutions Examination Council 041 call report form for NAICS Codes 522110, 522120, 522190, and 522210 and the National Credit Union Administration 5300 call report form for NAICS code 522130.
9. NAICS codes 531110, 531120, 531130, and 531190 – Leasing of building space to the Federal Government by Owners: For Government procurement, a size standard of \$38.5 million in gross receipts applies to the owners of building space leased to the Federal Government. The standard does not apply to an agent.
10. NAICS codes 488510, 531210, 541810, 561510, 561520 and 561920 – As measured by total revenues, but excluding funds received in trust for an unaffiliated third party, such as bookings or sales subject to commissions. The commissions received are included as revenue.
11. NAICS code 541711 and 541712:
 - a) "Research and Development" means laboratory or other physical research and development. It does not include economic, educational, engineering, operations, systems, or other nonphysical research; or computer programming, data processing, commercial and/or medical laboratory testing.
 - b) For research and development contracts requiring the delivery of a manufactured product, the appropriate size standard is that of the manufacturing industry.
 - c) For purposes of the Small Business Innovation Research (SBIR) program only, a different definition has been established by law. See § 121.701 of these regulations.
 - d) Research and Development for guided missiles and space vehicles includes evaluations and simulation, and other services requiring thorough knowledge of complete missiles and spacecraft.

12. NAICS 561210 – Facilities Support Services:

- a) If one or more activities of Facilities Support Services as defined in paragraph (b) (below in this footnote) can be identified with a specific industry and that industry accounts for 50% or more of the value of an entire procurement, then the proper classification of the procurement is that of the specific industry, not Facilities Support Services.
- b) "Facilities Support Services" requires the performance of three or more separate activities in the areas of services or specialty trade contractors industries. If services are performed, these service activities must each be in a separate NAICS industry. If the procurement requires the use of specialty trade contractors (plumbing, painting, plastering, carpentry, etc.), all such specialty trade contractors activities are considered a single activity and classified as "Building and Property Specialty Trade Services." Since "Building and Property Specialty Trade Services" is only one activity, two additional activities of separate NAICS industries are required for a procurement to be classified as "Facilities Support Services."

13. NAICS code 238990 – Building and Property Specialty Trade Services: If a procurement requires the use of multiple specialty trade contractors (i.e., plumbing, painting, plastering, carpentry, etc.), and no specialty trade accounts for 50% or more of the value of the procurement, all such specialty trade contractors activities are considered a single activity and classified as Building and Property Specialty Trade Services.

14. NAICS 562910 – Environmental Remediation Services:

- a) For SBA assistance as a small business concern in the industry of Environmental Remediation Services, other than for Government procurement, a concern must be engaged primarily in furnishing a range of services for the remediation of a contaminated environment to an acceptable condition including, but not limited to, preliminary assessment, site inspection, testing, remedial investigation, feasibility studies, regulatory compliance, remedial design, containment, remedial action, removal of contaminated materials, nuclear remediation, storage of contaminated materials and security and site closeouts. If one of such activities accounts for 50 percent or more of a concern's total revenues, employees, or other related factors, the concern's primary industry is that of the particular industry and not the Environmental Remediation Services Industry.
- b) For purposes of classifying a Government procurement as Environmental Remediation Services, the general purpose of the procurement must be to restore or directly support the restoration of a contaminated environment. This includes activities such as preliminary assessment, site inspection, testing, remedial investigation, feasibility studies, regulatory compliance, remedial design, remediation services, containment, nuclear remediation, and removal of contaminated materials or security and site closeouts. The general purpose of the procurement need not necessarily include

remedial actions. Also, the procurement must be composed of activities in three or more separate industries with separate NAICS codes or, in some instances (e.g., engineering), smaller sub-components of NAICS codes with separate and distinct size standards. These activities may include, but are not limited to, separate activities in industries such as: Heavy Construction; Special Trade Contractors; Engineering Services; Architectural Services; Management Consulting Services; Hazardous and Other Waste Collection; Remediation Services; Testing Laboratories; and Research and Development in the Physical, Engineering, and Life Sciences. If any activity in the procurement can be identified with a separate NAICS code, or component of a code with a separate distinct size standard, and that industry accounts for 50 percent or more of the value of the entire procurement, then the proper size standard is the one for that particular industry, and not the Environmental Remediation Service size standard.

16. **NAICS code 611519** – Job Corps Centers. For classifying a Federal procurement, the purpose of the solicitation must be for the management and operation of a U.S. Department of Labor Job Corps Center. The activities involved include admissions activities, life skills training, educational activities, comprehensive career preparation activities, career development activities, career transition activities, as well as the management and support functions and services needed to operate and maintain the facility. For SBA assistance as a small business concern, other than for Federal Government procurements, a concern must be primarily engaged in providing the services to operate and maintain Federal Job Corps Centers.

17. **NAICS code 115310** – Support Activities for Forestry – Forest Fire Suppression and Fuels Management Services are two components of Support Activities for Forestry. Forest Fire Suppression includes establishments which provide services to fight forest fires. These firms usually have fire-fighting crews and equipment. Fuels Management Services firms provide services to clear land of hazardous materials that would fuel forest fires. The treatments used by these firms may include prescribed fire, mechanical removal, establishing fuel breaks, thinning, pruning, and piling.

18. **NAICS code 541519** – An Information Technology Value Added Reseller (ITVAR) provides a total solution to information technology acquisitions by providing multi-vendor hardware and software along with significant value added services. Significant value added services consist of, but are not limited to, configuration consulting and design, systems integration, installation of multi-vendor computer equipment, customization of hardware or software, training, product technical support, maintenance, and end user support. For purposes of Government procurement, an information technology procurement classified under this exception and 150-employee size standard must consist of at least 15% and not more than 50% of value added services, as measured by the total contract price. In addition, the offeror must comply with the manufacturing performance requirements, or comply with the non-manufacturer rule by supplying the products of small business concerns, unless SBA has issued a class or contract specific waiver of the non-manufacturer rule. If the contract consists of less than 15% of value added services, then it must be classified under a NAICS manufacturing industry. If the contract

consists of more than 50% of value added services, then it must be classified under the NAICS industry that best describes the predominate service of the procurement.

19. **NAICS Sector 92** – Small business size standards are not established for this sector. Establishments in the Public Administration sector are Federal, State, and local government agencies which administer and oversee government programs and activities that are not performed by private establishments. Concerns performing operational services for the administration of a government program are classified under the NAICS private sector industry based on the activities performed. Similarly, procurements for these types of services are classified under the NAICS private sector industry that best describes the activities to be performed. For example, if a government agency issues a procurement for law enforcement services, the requirement would be classified using one of the NAICS industry codes under NAICS industry 56161, Investigation, Guard, and Armored Car Services.
