Special Note for Bridge Demolition, Renovation and Asbestos Abatement

If the project includes any bridge demolition or renovation, the successful bidder is required to notify Kentucky Division for Air Quality (KDAQ) via filing of form (DEP 7036) a minimum of 10 days prior to commencement of any bridge demolition or renovation work.

Any available information regarding possible asbestos containing materials (ACM) on or within bridges to be affected by the project has been included in the bid documents. These are to be included with the Contractor's notification filed with the KDAQ. If not included in the bid documents, the Department will provide that information to the successful bidder for inclusion in the KDAQ notice as soon as possible. If there are no documents stating otherwise, the bidders should assume there are no asbestos containing materials that will in any way affect the work.

Memorandum

To: Robert Hoagland
CC: Diana Radcliffe
From: O'Dail Lawson
Environmental Scientist IV
Division of Environmental Analysis
Date: 3/4/2015
Re: Asbestos Inspection Report for Magoffin 12-3011.40

This report is prepared to accompany the 10-Day NOI for Demolition to the Division of Air Quality. Please include all pages with submittal.

Project and Structure Information

Project # Magoffin 12-3011.40

Bridge # 077B00065N

Location: KY 867 over the Licking River

Description: The caulk samples collected were negative for asbestos. No abatement necessary.

Inspection Date: March 2, 2015

Results

The results revealed that there is no ACM abatement required at this time.
