Enclosures

An Equal Opportunity Employer M/F/D

All new structural steel shall receive shop surface preparation and shop applied prime coating in accordance with section 607. Intermediate and Finish coatings specified shall be field applied or shop applied in accordance with section 607. Necessary touch up/repair of the shop applied coatings on the new steel may be performed in the field. All items necessary to complete painting as specified in this note shall be considered to the unit price bid "Each" for Bearing Replacement.

**G. Verifying Field Conditions.** The Contractor shall field verify all plate and shape dimensions, bolt patterns and locations before ordering any material. New material that is unsuitable due to variation in existing structure shall be replaced at the Contractors expense.

**H. Damage to the structure.** The Contractor shall bear all responsibility and expense for any and all damage to the structure during the repair work, even to the removal and replacement of a fallen span, should the fallen span result from the Contractors actions.

**IV MEASUREMENT.**

**Bearing Replacement.** The Department will measure the quantity for "Each" repair.

**Jack and Support Bridge Span.** The Department will measure the quantity as "Lump Sum".

**V. PAYMENT.**

**Bearing Replacement (21969NN).** Payment at the contract unit price for "Each" is full compensation for furnishing and installing all material as specified.

**Jack & Support Bridge Span (08435):** Payment at the contract lump sum shall include all items and labor necessary to jack and support the bridge span as specified.

**Residual lead paint may still be on bridge.** The Contractor is advised to take all necessary protective measures including worker safety and environmental regulations when performing surface preparation and other work. The Department will not consider any claims based on residual lead paint.

**PROPOSAL BID ITEMS**
