Special Note for Work near Railroad

Special care shall be taken to ensure no impact to the railroad or its right of way. All work and equipment must be kept off the railroad's right of way. Special care shall be taken to ensure no materials, debris, or equipment fall down the slope towards the railroad or its ditches. At no point shall the Contractor enter the railroad's right of way.

In the case that anything happens to impact the railroad right of way or foul the tracks, please immediately call the emergency contact listed below. When referring to the location, be sure to mention the DOT number of the nearest crossing or railroad mile post range listed below. Any costs associated with such an incident, including but not limited to removal of the obstruction and/or repairs to the railroad facilities shall be the responsibility of the Contractor.
