\*\*\*NOTE: FOR ANNUAL RENEWALS, PLEASE SUBMIT ONLY A COPY OF THE PREVIOUS PERMIT WITH CORRECTIONS.\*\*\*

Annual permit(s) for travel in Kentucky will be issued from the above information. The power unit must be properly licensed with Kentucky. Overall height is limited to 13 ft. 6 in, and size and weight will vary depending on the type of permit applied for. In all cases, Kentucky laws and administrative regulations shall apply. In applying for these permits, the permittee acknowledges that the permittor is not a guarantor of the safe passage of vehicles or loads. Accordingly, it is the positive duty of the permittee to measure all clearances of highway structures, both laterally and vertically, and shall observe actual gross and axle weights prior to the passage of the vehicle through their location. Therefore, the permit is to be used at the sole risk of the permittee, without warranty of accuracy. The recipient is classified as a bare licensee whose duty it is to assume the risk involved in using the Kentucky roads designated. The permit to be issued will apply only to the state-maintained highways and does not include county or city highways. Any permit may be voided, without refund, if the applicant fails to comply with the terms of the permit and Kentucky laws and administrative regulations. Permits may be transferred from one vehicle to another for a \$10 fee. This application may take up to 12 business days to process.

I certify that I will survey the routes for movements to determine that all highways and structures are capable of handling the excess width, length, or weight. I have copies of, and am familiar with, all Kentucky laws and administrative regulations relating to movement of oversized and/or overweight loads.
