# Crash Statistics

About Stats State Profiles National Profiles

**Crash Statistics** are summarized crash statistics for large trucks and buses involved in fatal and non-fatal crashes that occurred in the United States. These statistics are derived from two sources: the Fatality Analysis Reporting System (FARS) and the Motor Carrier Management Information System (MCMIS). Crash Statistics contain information that can be used to identify safety problems in specific geographical areas or to compare state statistics to the national crash figures.

### National Large Truck Crash Facts

(Select a state below to view State Crash Facts)  
 Click here for [National Totals](#)

### Featured Crash Information

**[The Large Truck Crash Causation Study \(LTCCS\)](#)**  
 is based on a three-year data collection project conducted by the Federal Motor Carrier Safety Administration (FMCSA) and the National Highway Traffic Safety Administration (NHTSA). LTCCS is the first ever national study to attempt to determine the critical events and associated factors that contribute to serious truck crashes.

### 2005 National Large Truck Crash Facts

- ▶ 4,932 Large Trucks Involved in Fatal Crashes
- ▶ 5,212 Fatalities in Crashes Involving Large Trucks
- ▶ 139,772 Large Trucks Involved in Non-Fatal Crashes
- ▶ 60,617 Large Trucks Involved in Injury Crashes
- ▶ 91,824 Injuries in Crashes Involving Large Trucks
- ▶ 79,155 Large Trucks Involved in Towaway Crashes
- ▶ 2,371 Large Trucks Involved in Hazmat (HM) Placard Crashes

#### About Program Measures

Burgeoning growth in the commercial motor carrier industry over the last two decades and the increased threat to highway safety posed by many unsafe motor vehicle operations have led the U.S. Congress to (1) increase funding for the development and/or strengthening of motor carrier safety programs, rules and regulations, and (2) require greater Federal-State cooperation to ensure optimal program implementation.

# PASSENGER CARRIER SAFETY

"Your information source for safe interstate passenger transportation."

[Welcome](#) | [Vehicle Type Information](#) | [Find a Carrier](#) | [Helpful Links](#) | [About Us](#) | [Feedback](#)

Search for a Passenger Carrier Near You

Select Location:  
by Zip Code

by State\*

- J.S.
- Alabama
- Alaska
- Arizona
- Arkansas
- California
- Colorado
- Connecticut

To choose multiple states, press and hold the control key

Select Vehicle Type

All Types

Enter Carrier Name

[optional]

Find Carriers

Use the search tools at the left side of the page to generate a list of interstate passenger carriers or search for a specific interstate carrier by entering the carrier's name in the text box provided at the left.

Search by Zip Code or State(s) (not both) and select the desired vehicle type. (If both a Zip Code and State are selected, the Zip Code takes precedence and the State is ignored.)

By entering your Zip Code, an attempt will be made to locate the passenger carriers operating in your area.

Our Zip Code database is based on the carrier's primary business office and may not represent their actual operating areas.

The list of passenger carriers on this website is based upon the State and/or Zip Code of each carrier's primary business office. The list may not include those carriers that only have a terminal in your local area. In addition, some companies may not have an office or terminal in your local area, but nonetheless provide transportation services in your area. Passenger carrier lists should not be seen as a total comprehensive list of passenger transportation service providers for your area. You may want to consult your local phone directory or other source for additional service providers.

To research the safety history of any specific interstate passenger carrier, enter the carrier's name in the text box provided at the left.

Although extensive safety data about all passenger carriers is not available, all for-hire passenger carriers that operate in interstate commerce must be licensed and insured. Before making a hiring decision, you can and should always check whether an interstate passenger carrier is licensed and maintains the required level of insurance. You can view this information by using the search functions on this page.

**Updated Results: March 23, 2007**

**State Rating**

- Good
- Fair
- Poor

**Data sources:** To measure the completeness of the data, 2005 State-reported crash data in MCMIS has been compared to NHTSA's 2005 Fatality Analysis Reporting System (FARS) data. To measure timeliness, accuracy and consistency, State-reported crash and roadside inspection records in MCMIS have been evaluated based on a March 23, 2007 snapshot of the events that occurred January 1, 2006 through December 31, 2006.

# Highway Classes

603 KAR 5:066

Weight Designations

<http://www.lrc.ky.gov/kar/603/005/066.htm>

# Highway Classification

- A Highway 44,000 Lbs.
- AA Highway 62,000 Lbs.
- AAA Highway 80,000 Lbs.

Highway Classifications can be located at:

<http://www.planning.kytc.ky.gov/maps/NTN/ntn.asp>

# STAA Vehicles

Section 1. Definitions. (1) "STAA vehicle" shall mean a vehicle which exceeds the dimension limits set forth in 603 KAR 5:070, Section 1, but which does not exceed the dimensions prescribed by 603 KAR 5:070, Section 2(2). This includes the larger vehicles authorized by the **Surface Transportation Assistant Act of 1980** as amended and 23 CFR Part 658.

# Access to other facilities

- (a) The National Truck Network;
- (b) The fifteen (15) mile (24.14 kilometers) access authorized in KRS 189.222(1)(f);
- (c) The five (5) mile (8.05 kilometers) access authorized in Section 5(2) of this administrative regulation; and
- (d) The one (1) mile (1.61 kilometers) access authorized in Section 5(3) of this administrative regulation.

How can I get a road added  
to the Designated List ?
