

Listed below are corrections and clarifications for projects included in the Kentucky Transportation Cabinet's Procurement Bulletin for Engineering and Related Services, Bulletin No. 2001-03 dated September 15, 2000.

Johnson County - 12-5002

Reconstruction of KY 1110 between Milepoints 0.2 to 0.3 - to correct embankment failure at East Point. (road number corrected)

Livingston County - 01-0330

Question: Will Cabinet provide information on the current alignments under study for the Tennessee River Bridge replacement project (Item 01-1115)? It appears that project advertised must tie into the new river bridge/approaches.

ANSWER: This is an ongoing project; information is draft information.

Question: The termini listed for this project (.8 miles east of bridge to .5 miles east of Rudd-Spees Rd) may not agree with the length of project (3.3 miles) advertised. Is there an error?

ANSWER: For clarification, the project will begin at the northern end of the North approach to the new Tennessee River Bridge and continue northward to tie down at the Ohio Valley Church. Which is the same as the description. (.8 miles East of the bridge to .5 miles East of Rudd-Spees Road)

James C. Grider, P.E., Director
