QUESTION: It appears that the topo file and the .alg files are the only files available for the New Circle Road project. It says there is a Dtm file, but it doesn't appear to be there. Can you provide Phase I plans that show the proposed design including edge of pavements, disturb limits and proposed right of way lines for the preferred alternate and the Dtm file?

RESPONSE: The existing and proposed dtms are not being provided at the time of this advertisement. Existing and proposed dtms will be provided to the selected consultant for Phase 2 Design.

Links to the following files have been added to the advertisement so that proposed design can be viewed:

- 1) [alt-8-cl.dgn](#)
- 2) [frontage roads-stakeholders-yellow alt.dgn](#)
- 3) [alt-8-xs.dgn](#)
