Type of Funding: State Funds

Responsible Agency: Kentucky Transportation Cabinet, District 4

Project Description: Construct a Northern Bypass of Glendale from KY 222 West of Glendale to KY 222 at Mud Splash Road East of Glendale. (This project is broken out of the ZVARIOUS District 99-391.01 Funding using \$600,000 of State Funds to conduct Planning Study, Preliminary Engineering and Environmental Activities. The State Funding will be used for Matching Funds on Future Phases of the Project). – Planning – \$600,000.

Financial Constraint: This amendment allows the utilization of state funds for the planning phase of both of the above listed projects. The State Funding will be used for Matching Funds on Future Phases of both projects. The Design, Right-of-Way, Utilities, and Construction phases of both projects will be added by Administrative Modification as Federal funds become available for the projects. The Federal Funding will be committed by the project sponsor (KYTC) and will maintain financial constraint of the TIP.

Anticipated Effect of the TIP Amendment Toward Achieving Performance Measure Targets:

This new I-65 Interchange at KY 1136 will enhance access to the currently under construction BlueOvalSK development. Travel Time Reliability and Safety are primary areas of focus in terms of Performance Measure Targets and both will be positively impacted by the new interchange.

The proposed Northern Bypass of Glendale will also enhance access to BlueOvalSK and will also divert traffic around the Glendale Historic District. Again, Travel Time Reliability and Safety are the primary focus areas in terms of Performance Measure Targets and both will be positively impacted by the enhance connection. The Western Kentucky Parkway and US 62 lie just to the west of the proposed bypass. Traffic commuting from the west to BlueOvalSK are likely to utilize KY 222, so the bypass around Glendale will enhance travel time, safety, and also protect the historic district.
