

Local Officials & Public Meeting
Ohio County - Item Number 2-8951.00
September 26, 2022

Question & Comment Form

The Kentucky Transportation Cabinet, District 2, requests that you provide your opinions, ideas, and comments in writing so they can be given full consideration during the decision-making process for the proposed improvements along KY 54. All comments are welcome, and we appreciate your input.

Alternatives

Four preliminary alternatives are depicted on the displays, 1A and 2A, and 1C and 2C. Following is a summary of these alternatives:

- Alt. 1A** This alternative provides two lanes with curb, gutter, and sidewalks through the project length. The new highway follows the existing alignment except from Smith St. to Frederica St. On-street parking is retained downtown.

- Alt. 1C** This alternative provides two lanes with curb, gutter, and sidewalks through the project length. The new highway follows the existing alignment and includes some improvements to the horizontal curve at East main St. On-street parking is retained downtown.

- Alt. 2A** This alternative provides two through lanes and a continuous turn lane along with curb, gutter, and sidewalks from KY 1700 to Smith St. Two lanes with curb, gutter, and sidewalks are provided from Smith St. to the end of the project. The reconstructed highway follows the existing alignment except from Smith St. to Frederica St. On-street parking is **not** retained downtown and potential parking areas are shown in blue.

- Alt. 2C** This alternative provides two through lanes and a continuous turn lane along with curb, gutter, and sidewalks from KY 1700 to Smith St. Two lanes with curb, gutter, and sidewalks are provided from Smith St. to the end of the project. The new highway follows the existing alignment and includes some improvements to the horizontal curve at East main St. On-street parking is **not** retained downtown and potential parking areas are shown in blue.

Questions

- 1) Do you prefer one alignment over the other? If so, why?

2) Do you prefer the two-lane typical section or the three-lane typical section? Why?

3) Are you concerned about the availability of on-street parking downtown?

Additional Comments
