

Listed below are corrections and clarifications for projects included in the Kentucky Transportation Cabinet's Procurement Bulletin for Engineering and Related Services, Bulletin No. 98-9 dated May 12, 1998.

Larue County 4-121.00 KY 210:

Question:

- Request for map of alignments under study

Response:

- [<Click here to see map of alternates>](#)

Statewide Small Urban Transportation Studies:

Question:

- Could you please confirm the number of pages allowed for the Proposed Procedures for the Small Urban Area studies. My recollection is that additional pages were allowed for these proposals previously. Also, if a consultant chooses to pursue more than one of these studies, should they prepare separate TC40-15 forms for each project or just separate procedures? (I just want to make sure that the word proposal in the Project Information sheet refers to the TC40-15 forms and not the procedures.)

Response:

- *In an effort to minimize duplication, only one Response to Announcement will be required for all three projects. A consultant may respond to Warren County, Franklin County and Laurel County areas using the same Response to Announcement.*
- *For Section E, page 18 - Procedures to Accomplish the services in the Advertised Project, two pages will be allowed for each Warren County, Franklin County, and Laurel County. If requesting to be considered for more than one area, please make distinct separate discussions in this section.*
- *The selection committee will select a consultant for Warren County, one consultant for Franklin County and one consultant for Laurel County. The same consultant may be selected for more than one area.*

Mr. Stephen A. Williams, P.E.  
Acting Director

Division of Professional Services
