SPECIAL INSTRUCTIONS

The Department reserves the option to modify the selected consultant's agreement to include any necessary engineering and/or related services for this project. The firm(s) will at that time be prequalified by the Department in the required area(s).

Special or unique expertise should be shown on the project approach sheet of your response. The free format page in your response should be used for information pertaining to the inspection fee.

The inspection fee must be one (1) hourly rate which includes visual inspection and/or non-destructive testing inspection. The rate is to be the same for straight time and overtime. The rate should also include all overhead, travel and per diem expenses. The rate will apply to travel time (one round trip) and inspection in any fabrication shop.

The inspector must be an AWS certified, welding inspection and be a qualified, certified level 2 non-destructive testing inspector for magnetic particle and ultrasonic testing in accordance with the American Society of Non-Destructive Testing's recommended practices.

SCOPE

It is estimated that there will be five (5) structural steel bridges totaling 17,180 tons let to contract in fiscal year 2003 that will be fabricated at various fabrication shops within the United States.

The consultant will provide the complete fabrication shop inspection of structural steel bridges let to contract during Fiscal Year July 1, 2002 - June 30, 2003. The duties include performing all ultrasonic, magnetic particle testing of welds, and radiographic evaluation as required, and visual inspection to ensure fabrication in accordance with applicable specifications.
