

Questions and Corrections
2017-06

12/20/16

[2017-06 Transportation Asset Management Plan](#)

CLARIFICATION: The Electronic engineering content system experience requirement has been removed from the Page 4 (A-J): Relative Experience of Key Project Team Members section of the Special Instructions. Please see the revised RFP for more details.

1/3/17

[2017-06 Transportation Asset Management Plan](#)

QUESTION: Page 1 of the "Instructions for Response to Announcement" document under "Basic Project Information", bullet number 11 states that we need to include certification that our firm is registered with the Commonwealth of Kentucky to perform engineering services needed for the project. It is my interpretation that this is only for engineering work so it would not be required for this project. Can you please confirm?

ANSWER: Since these are not engineering services, the Cabinet will not require firms to be registered to perform engineering services to be eligible to respond to this announcement.

1/13/17

[2017-06 Transportation Asset Management Plan](#)

CLARIFICATION: The Selection Committee has determined that the Qualified Consultants' Pre-Proposal Conference previously scheduled for February 1 will not be necessary. As a result, the Qualified Consultants' Proposals originally due on February 15 will be advanced to February 8. The remaining dates in the [IX. Procurement Schedule](#) will remain as originally anticipated. Please see the revised RFP for more details.

2/2/17

[2017-06 Transportation Asset Management Plan](#)

CLARIFICATION: The [2016 KYTC Transportation Asset Management Self-Assessment](#) has now been provided within the [V. Scope of Work](#) section of the RFP. Please see the revised RFP for more details.
