ASI INVESTIGATES:

WEATHER ACCIDENTS

JOIN US FOR THE LATEST SEMINAR IN YOUR AREA!

Weather is often blamed as the cause of accidents when, in reality, it's poor decision making that's the culprit. Arm yourself to make the right weather choices at crucial moments before and during flight.

HERE'S WHAT YOU'LL LEARN:

- Why getting the big weather picture is important
- How to improve your go/no-go decision-making process
- Tips to "weatherize" your mindset and avoid traps like flying VFR into IMC
- Why technology can be a great tool and your worst enemy in weather flying

October 1, 2018

7:00 p.m. – 9:00 p.m.

Hopkinsville-Christian County Airport
300 Memorial Field Drive
Hopkinsville, KY 42240

Sponsored by the Kentucky Department of Aviation.
