# A. Pre-Bid Conference

The meeting was convened at 10:00 A.M (Central Time) by Robert Pennell of KYTC.

## **Question and Answer**

Q: Star Smith from M & M Services asked when he states to have control of the lights what does he want accomplished.

A: Robert Pennell stated that they would flag traffic back and forth by calling each other when traffic was backed up.

Q: Star Smith from M & M Services asked if it was for traffic backups. A: Robert Pennell stated yes.

Q: Robert Lail from Delong Concrete asked if there are two different completion dates.

A: Robert Pennell stated no, they just had to have their deck work done by the date in the proposal and then there is a penalty for having lane closures after that. The completion date for the entire project is January 15, 2013.

Q: Micheal Merida from Kay & Kay Contracting asked if they could have concrete trucks on the bridge.

A: Robert Pennell stated that the weight limit on the bridge is 3 tons so they probably wouldn't be able to.

Q: How will the patching be paid if it goes full depth.

A: The full depth patching and the partial depth patching will be paid as the same bid item Concrete Patching Repair (Deck).

Q: The notes references Multi phase signal. Which Signal system is to be used?

A: Temp Signal 2 Phase

Meeting was adjourned at approximately 10:20 AM.

Minutes submitted by: Rick Younce

Approved by: Robert Pennell
