

Lawrence Creek Bridge (US 68) Non-Mandatory Pre-Bid Meeting Minutes

Meeting Name Pre-Bid Meeting	Meeting Date October 11, 2019	Attendees See Attached Sign-In Sheet
Project Number CID 191056, Call 101 09-1095.00	Location D9 Structures Office Flemingsburg, KY	
Project Name Lawrence Creek (US 68) Bridge Repair	Time 10:00 am	

Introduction

The Pre-Bid meeting was opened with a brief introduction of all attendees and an overview of the purpose of the meeting.

1. This Pre-Bid Meeting is for the Bridge Repair of Lawrence Creek Bridge (US-68). Attendance at this meeting is *not* required in order to be eligible to submit a bid on the project.
2. The purpose of the Pre-Bid Meeting is to introduce and clarify the project scope and to provide an opportunity for the contractor to pose questions.
3. Blake Jones clarified that this is a Repair Project, not a Replacement Project. The project was mislabelled in the proposal.

Meeting Presentation

The meeting presentation consisted of an overview of the Bridge History and the Design Plans.

Brief History of US-68 over Lawrence Creek

1. Designed in 1994 and built in 1997.
2. Consists of 5 spans, 4 substructure units supported on piles and 2 substructure units supported on spread footings.
3. The roadway is constructed on deep embankment.
4. Piles are a combination of straight and battered with lengths of approximately 100'-125'.
5. Settlement and rotational issues identified at Abutments immediately after construction.
6. Piles have become exposed due to embankment settlement.
7. AECOM was contracted to perform an evaluation study and to generate repair plans.

Each sheet of the repair plans was discussed briefly.

Questions & Answers

1. Can production piles be started before gaining approval on the verification tests?
 - a. Answer: No, verification tests must be completed and meet the acceptance criteria prior to installing production piles.

Addendums/Reminders

1. KYTC will provide additional information on Construction Procurement's website, including the archive plans from the original construction showing the right-of-way limits and the bridge design plans from the original construction.
2. Contractor is expected to perform an independent survey to determine all final elevations (bridge seat, abutment, etc.).

No other questions were asked, and the meeting adjourned at 10:25 am.

End of Minutes.
