SPECIAL NOTE FOR PAVEMENT ALTERNATES

I. DESCRIPTION

Except as specified herein, perform all work in accordance with the Department's Standard and Supplemental Specifications, Special Notes and Special Provisions, and Standard and Sepia Drawings, current editions. Article references are to the Standard Specifications. Furnish all materials, labor, equipment, and incidentals for the following:

(1) Maintain and Control Traffic; (2) Surface Preparation; (3) Micro-Surface or Ultra-Thin Overlay; and (4) All other work specified in the contract.

II. MATERIALS

Provide for materials to be sampled and tested in accordance with the Department's Sampling Manual. Unless otherwise specified herein, make materials available for sampling a sufficient time in advance of the use of the materials to allow for the necessary time for testing.

A. Maintain and Control Traffic. See Traffic Control Plan.

B. Asphalt Tack Coat. See Section 406.02.01.

C. Micro-Surface. See Special Note for Micro-Surfacing.

D. Ultra-Thin Overlay. Provide Class 3 Asphalt Surface No. 4A PG64-22.

III. CONSTRUCTION METHODS

Prior to beginning work, the Engineer will conduct a Preconstruction Conference according to Section 108.03. The Engineer will not waive the preconstruction Conference. Informally partner with the Department according to Section 105.06.

A. Maintain and Control Traffic. See Traffic Control Plan.

B. Surface Preparation. Remove Type V Pavement Markers according to Section 403.03.02. For the Micro-Surface alternate, the Department will provide for sealing of cracks that cannot be adequately filled by the Micro Surfacing Leveling Course. For the Micro-Surface alternate, remove Thermoplastic Striping by water blasting without damaging the underlying pavement.

Pavement Alternates
Page 2 of 7

C. Asphalt Tack Coat. For Micro-Surface alternate, see Special Note for Micro-Surfacing. For Ultra-Thin Overlay alternate, apply tack coat at a rate to achieve an undiluted residue of 0.80 pounds per square yard (0.10 gal/yd²).

D. Micro-Surface. See Special Note for Micro-Surfacing.

E. Ultra-Thin Overlay. Conform to Section 403.

F Disposal of Waste. Dispose of all removed concrete, asphalt materials, thermoplastic materials, and waste and debris off the right-of-way at approved sites obtained by the Contractor at no additional cost to the Department. See Special Note for Waste and Borrow.

G. Restoration. Restore any roadway features disturbed by the work or the Contractor's operations in like kind materials and design as directed by the Engineer at no additional cost to the Department.

H. On-Site Inspection. Make a thorough inspection of the site prior to submitting bid and be thoroughly familiar with existing conditions so that the work can be expeditiously performed after a contract is awarded. The Department will consider submission of a bid as evidence of this inspection having been made. The Department will not consider any claims resulting from site conditions.

IV. METHOD OF MEASUREMENT

The Department will measure only the bid items listed for payment. The Department will consider all other items required to complete the work incidental to the listed items.

A. Maintain and Control Traffic. See Traffic Control Plan.

B. Surface Preparation. For removing Type V Pavement Markers, see Section 403.04.01. For the Micro-Surface alternate, the Department will measure water blasting removal of thermoplastic pavement striping in Linear Feet. Other than the bid items listed, surface preparation will not be measured for payment, but shall be incidental the other items of work as applicable.

C. Asphalt Material for Tack. See Section 406.04.02.

D. Micro-Surface. See Special Note for Micro-Surfacing.

E. Ultra-Thin Overlay. See Section 402.04.

F. Tack Coat. See Section 406.04.02.

Pavement Alternates
Page 3 of 7

G. Restoration. The Department will not measure restoration items but shall be incidental to the other items of work.

V. BASIS OF PAYMENT

The Department will not make direct payment other than for the bid items listed. The Department will consider payment for all other items required to complete the work incidental to the listed items.

A. Maintain and Control Traffic. See Traffic Control Plan.

B. Surface Preparation. For removing Type V Pavement Markers, see Section 403.05.05. Accept payment at the Contract unit prices for water blasting removal of thermoplastic pavement striping as full compensation for all labor, materials, equipment, and incidentals for removing and disposing of the thermoplastic pavement striping.

C. Micro-Surface. See Special Note for Micro-Surfacing.

D. Ultra-Thin Overlay. See Section 402.05.02.
