

Andy Beshear
GOVERNOR

TRANSPORTATION CABINET

200 Mero Street
Frankfort, Kentucky 40601

Jim Gray
SECRETARY

July 5, 2024

CALL NO. 106
CONTRACT ID NO. 245356
ADDENDUM # 2

Subject: Jefferson County, STP BRZ 9030 (473)
Letting July 18, 2024

(1) Revised - Wage Rates - Pages 106-118 of 127

Proposal revisions are available at <http://transportation.ky.gov/Construction-Procurement/>.

If you have any questions, please contact us at 502-564-3500.

Sincerely,

A handwritten signature in black ink that reads "Rachel Mills".

Rachel Mills, P.E.
Director
Division of Construction Procurement

RM:mr
Enclosures

- (d) Have at the job site adequate equipment, labor and materials and allow sufficient time to clean up debris resulting from the blasting without delay to trains, as well as correcting at Contractor's expense any track misalignment or other damage to Railroad property resulting from the blasting as directed by the Railway's authorized representative. If the Contractor's actions result in delay of trains, the Contractor shall bear the entire cost thereof.

2. The Railroad representative will:

- (a) Determine the location of trains and advise the Contractor the approximate amount of time available for the blasting operation and clean-up.
- (b) Have the authority to order discontinuance of blasting if, in the Railroad Representative's opinion, blasting is too hazardous or is not in accord with these special provisions.

E. MAINTENANCE OF RAILROAD FACILITIES.

1. The Contractor will be required to maintain all ditches and drainage structures free of silt or other obstructions which may result from the Contractor's operations and provide and maintain any erosion control measures as required. The Contractor will promptly repair eroded areas with Railroad corridors and repair any other damage to the property of the Railroad or its tenants.
2. All such maintenance and repair of damages due to the Contractor's operation shall be done at the Contractor's expense.

F. STORAGE OF MATERIALS AND EQUIPMENT.

Materials and equipment shall not be stored where they will interfere with Railroad operations, nor on the railroad corridor without first having obtained permission from the Railroad Representative, and such permission will be with the understanding that the Railroad Company will not be liable for damage to such material and equipment from any cause and that the Railroad Representative may move or require the Contractor to move, at the Contractor's expense, such material and equipment. All grading or construction machinery that is left parked near any track unattended by a watchman shall be effectively immobilized so that it cannot be moved by unauthorized persons. The Contractor shall protect, defend, indemnify and save Railroad, and any associated, controlled or affiliated corporation, harmless from and against all losses, costs, expenses, claim or liability for loss or damage to property or the loss of life or personal injury, arising out of or incident to the Contractor's failure to immobilize grading or construction machinery.

- G. CLEANUP. Upon completion of the work, the Contractor shall remove all machinery, equipment, surplus materials, falsework, rubbish or temporary buildings of the Contractor, from the railroad corridor and leave it in a neat condition satisfactory to the Chief Engineer of the Railroad or his authorized representative.

6. DAMAGES:

- A. The Contractor shall assume all liability for any and all damages to Contractor's work, employees, equipment and materials caused by Railroad traffic.
- B. Any costs incurred by the Railroad for repairing damages to its property or to property of its tenants, caused by or resulting from the operations of the contractor, shall be paid directly to the Railroad by the Contractor.

7. FLAGGING SERVICES:

A. **When Required:**

The Railroad has sole authority to determine the need for flagging required to protect its operations. In general, the requirements of such services will be whenever the Contractor's personnel or equipment are likely to be, working on the Railroad's corridor, or across, over, adjacent to, or under a track, or when such work has disturbed or is likely to disturb a railroad structure or the railroad roadbed or surface and alignment of any track to such extent that the movement of trains must be controlled by flagging.

Normally, the Railroad will assign one flagger to a project; but in some cases, more than one may be necessary, such as yard limits where three (3) flaggers may be required. However, if the Contractor works within distances that violate instructions given by the Railroad's authorized representative or performs work that has not been scheduled with the Railroad's authorized representative, a flagger or flaggers may be required until the project has been completed.

B. SCHEDULING AND NOTIFICATION.

1. Not later than the time that approval is initially requested to begin work on the Railroad corridor, Contractor shall furnish to the Railroad a schedule for all work required to complete the portion of the project within the Railroad corridor and arrange for a job site meeting between the Contractor, the Agency, and the Railroad's authorized representative. Flagger or Flaggers may not be provided until the job site meeting has been conducted and the Contractor's work scheduled. If flagging is required, no work shall be undertaken until the flagger or flaggers are present at the job site.
2. Initially, it may take up to 30 days to obtain flagging from the Railroad. If flagging service is required, such notice shall be submitted at least 30 business days in advance of the date scheduled to commence the Work. Such notices shall include sufficient details and dates of the proposed work to enable the Railroad Representative to determine if flagging will be required. When, flagging begins the flagger is usually assigned by the Railroad to work at the project site on a continual basis until no longer needed and cannot be called for on a spot basis. If flagging becomes unnecessary and is suspended, it may take up to 10 days to resume flagging services from the Railroad. It is necessary to give 5 working days notice before flagging service may be discontinued and responsibility for payment stopped. Once begun, if such work is suspended at any time, or for any reason, the Contractor will be required to give the Railroad Representative at least 7 working days of advance notice before resuming work on the Railroad corridor.
3. If, after the flagger is assigned to the project site, emergencies arise which require the flaggers presence elsewhere, then the Contractor shall delay work on the Railroad corridor until such time as the flagger is again available. Any additional costs resulting from such delay shall be borne by the Contractor and not the Railroad.

C. PAYMENT.

1. The Cabinet will be responsible for paying the Railroad directly for any and all costs of flagging, which may be required to accomplish the construction.
2. For planning purposes, the estimated cost of flagging is \$1,200.00 per day based on Contractor's 8-hour workday which necessitates the flagger to work a 10-hour day (1 hour for travel to and from the project site and 2 hours to install and remove the warning boards if necessary). This cost includes the base pay for the flagger, overhead, and a per diem charge for travel expenses, meals, and lodging.
3. Work by a flagger in excess of 8 hours per day or 40 hours per week, but not more than 12 hours a day will result in overtime pay at ½ times the appropriate rate. Work by a flagger in excess of 12 hours per day will result in overtime pay at 2 times the appropriate rate. If work is performed on a holiday, the flagging rate is 2 ½ times the normal rate.
4. Railroad work involved in preparing and handling bills will also be charged to the Cabinet. Flagging costs are subject to change. The above estimates of flagging cost are provided for information only and are not binding in any way.

D. VERIFICATION.

1. The Contractor will review and sign the Railroad flagger's time sheet, attesting that the flagger was present during the time recorded. Flagger may be removed by Railroad if the time sheet is not signed. If flagger is removed, the Contractor will not be allowed to re-enter the Railroad corridor until the issue is resolved. Any complaints concerning flagger or flaggers must be resolved in a timely manner. If need for flagger or flagger is questioned, please contact Railroad Representative.

All verbal complaints must be confirmed in writing by the Contractor within 5 working days. All written correspondence should be addressed to:

R.J. Corman Railroad Company/Central Kentucky Lines
Attn: Deborah Hawley, Real Estate Director
P. O. Box 788
101 RJ Corman Drive
Nicholasville, Kentucky 40340
Phone 859-881-2499 Fax 859-881-2699
Deborah.hawley@RJCorman.com

2. The Railroad flagger assigned to the project will be responsible for notifying the Project Engineer upon arrival at the job site on the first day (or as soon thereafter as possible) that flagging services begin and on the last day that such services are performed for each separate period that services are provided. The Project Engineer will document such notification in the project records. When requested, the Project Engineer will also sign the flagger's timesheet showing daily time spent and activity at the project site.

8. HAUL ACROSS RAILROAD:

- A. Where the plans show or imply that materials of any nature must be hauled across a railroad corridor, unless the plans clearly show that the Agency has included arrangements for such haul in its agreement with the Railroad, the Contractor will be required to make all necessary arrangements with the Railroad regarding means of transporting such materials. The Contractor will be required to bear all costs incidental, including flagging, to such crossings whether services are performed by the Contractor's forces or by Railroad personnel.
- B. No crossing may be established for use of the Contractor for transporting materials or equipment across the tracks of the Railroad Company. If Agency or Contractor desires access across Railroad property or tracks other than existing and open public road crossing in or incident to construction of the project, the Agency or Contractor must first obtain the permission of the Railroad. Should the Railroad grant such permission the railroad shall execute a license agreement or right of entry satisfactory to the railroad, wherein the Agency or Contractor agrees to bear all costs.

9. WORK FOR THE BENEFIT OF THE CONTRACTOR:

- A. All temporary or permanent changes in wire lines or other facilities which are considered necessary to the project are shown on the plans; included in the force account agreement between the Agency and the Railroad or will be covered by appropriate revisions to same which will be initiated and approved by the Agency and/or the Railroad.
- B. Should the Contractor desire any changes in addition to the above, then he shall make separate arrangements with the Railroad, to be accomplished at the Contractor's expense.

10. COOPERATION AND DELAYS:

- A. It shall be the Contractor's responsibility to arrange a schedule with the Railroad for accomplishing stage construction involving work by the Railroad or tenants of the Railroad. In arranging the schedule, the Contractor shall ascertain, from the Railroad, the lead time required for assembling crews and materials and shall make, due allowance therefor.
- B. No charge or claims of the Contractor against either the Agency or the Railroad will be allowed for hindrance or delay on account of railway traffic; any work done by the Railroad Company, or other delay incident to or necessary for safe maintenance of rail traffic or for any delays due to compliance with these special provisions.

11. TRAIN CREW'S WALKWAYS:

Along the outer side of each exterior track of multiple operated tracks, and on each side of single operated track, an unobstructed continuous space suitable for a train crew's use in walking along trains, extending to a line not less than 10 feet from centerline of track, shall be maintained. Any temporary impediments to walkways or drainage structures
