IMPROVE PEDESTRIAN CONNECTIVITY ALONG KY 146
ITEM NUMBER: 5-759**

PROJECT NOTES ON UTILITIES

Please Note: The information presented in this Utility Note is informational in nature and the information contained herein is not guaranteed.

The contractor will be responsible for contacting all utility facility owners on the subject project to coordinate his activities. The contractor will coordinate his activities to minimize and, where possible, avoid conflicts with utility facilities. Due to the nature of the work proposed, it is unlikely to conflict with the existing utilities beyond minor facility adjustments. Where conflicts with utility facilities are unavoidable, the contractor will coordinate any necessary relocation work with the facility owner and Resident Engineer. The Kentucky Transportation Cabinet maintains the right to remove or alter portions of this contract if a utility conflict occurs. The utility facilities as noted in the previous section(s) have been determined using data garnered by varied means and with varying degrees of accuracy: from the facility owners, a result of S.U.E., field inspections, and/or reviews of record drawings. The facilities defined may not be inclusive of all utilities in the project scope and are not Level A quality, unless specified as such. It is the contractor's responsibility to verify all utilities and their respective locations before excavating.

The contractor shall make every effort to protect underground facilities from damage as prescribed in the Underground Facility Damage Protection Act of 1994, Kentucky Revised Statute KRS 367.4901 to 367.4917. It is the contractor's responsibility to determine and take steps necessary to be in compliance with federal and state damage prevention directives. The contractor is instructed to contact KY 811 for the location of existing underground utilities. Contact shall be made a minimum of two (2) and no more than ten (10) business days prior to excavation.

For all projects under 2000 Linear feet which require a normal excavation locate request pursuant to KRS 367.4901-4917, the awarded contractor shall field mark the proposed excavation or construction boundaries of the project (also called white lining) using the procedure set forth in KRS 367.4909(9)(k). For all projects over 2000 linear feet, which are defined as a "Large Project" in KRS 367.4903(18), the awarded contractor shall initially mark the first 2000 linear feet minimally of proposed excavation or construction boundaries of the project to be worked using the procedure set forth in KRS 367.4909(9)(k). This temporary field locating of the project excavation boundary shall take place prior to submitting an excavation location request to the underground utility protection Kentucky Contact Center. For large projects, the awarded contractor shall work with the impacted utilities to determine when additional white lining of the remainder of the project site will take place. This provision shall not alter or relieve the awarded contractor from complying with requirements of KRS 367.4905 to 367.4917 in their entirety.

The contractor shall submit Excavation Locate Requests to the Kentucky Contact Center (KY 811) via web ticket entry. The submission of this request does not relieve the contractor from the responsibility of contacting non-member facility owners, whom are to be contacted through their individual Protection Notification Center. It may be necessary for the contractor to contact the County Court Clerk to determine what utility companies have facilities in the area. Non-compliance with these directives can result in the enforcement of penalties.

UTILITIES AND RAIL CERTIFICATION NOTE

IMPROVE PEDESTRIAN CONNECTIVITY ALONG KY 146
ITEM NUMBER: 5-759**

NOTE: DO NOT DISTURB THE FOLLOWING FACILITIES LOCATED WITHIN THE PROJECT DISTURB LIMITS

AT&T – has an existing underground communication line from STA. 20+00 to approximately STA. 24+00. The underground line crosses under the proposed sidewalk and KY 146 at approximately STA. 21+60 and 24+00. At STA. 24+00 the communication line goes aerial and continues on the LG&E owned pole route described below. **These facilities are not to be disturbed.**

Charter Communications – has existing aerial communication lines on the LG&E owned pole route described below. **These facilities are not to be disturbed.**

KY Wired – has an existing underground communication line from STA. 20+00 to approximately STA. 24+00 at which point the communication line continues on the LG&E owned pole route. **These facilities are not to be disturbed.**

Louisville Gas & Electric - has an existing 8" gas main, which is located on the west side of the proposed sidewalk. The existing gas main parallels KY 146 approximately 5’ outside the shoulder for the length of the project. Gas service lines cross the proposed sidewalk near STA. 21+30 and 23+90. **These facilities are not to be disturbed.**

Louisville Gas & Electric also has an existing pole route, which runs along the west side of KY 146 from STA. 20+00 to approximately STA. 24+00 at which point the aerial utility lines cross to the south side of KY 146. The existing pole route then continues along the east side of the proposed sidewalk. **These facilities are not to be disturbed.**

Louisville Water Company – has 12-inch and 16-inch water mains, which are located on the west side of KY 146 from STA. 20+00 to approximately STA. 24+50. The 12-inch main continues along the west side of KY 146. The 16-inch main crosses KY 146 and the proposed sidewalk at STA. 24+50 and continues outside the project area. **These facilities are not to be disturbed.**

The Contractor is fully responsible for protection of all utilities listed above

THE FOLLOWING FACILITY OWNERS ARE RELOCATING/ADJUSTING THEIR FACILITIES WITHIN THE PROJECT LIMITS AND WILL BE COMPLETE PRIOR TO CONSTRUCTION

Not Applicable

THE FOLLOWING FACILITY OWNERS HAVE FACILITIES TO BE RELOCATED/ADJUSTED BY THE OWNER OR THEIR SUBCONTRACTOR AND IS TO BE COORDINATED WITH THE ROAD CONTRACT

Special Note for Work near Railroad

Special care shall be taken to ensure no impact to the railroad or its right of way on the opposite side of the highway. All work and equipment must be kept off the railroad's right of way. At no point shall the Contractor enter the railroad's right of way.

In the case that anything happens to impact the railroad right of way or foul the tracks, please immediately call the emergency contact listed below. When referring to the location, be sure to mention the DOT number and railroad mile post. Any costs associated with such an incident, including but not limited to removal of the obstruction and/or repairs to the railroad facilities shall be the responsibility of the Contractor.

Location:

CSX Transportation, Inc.

Between crossings DOT # 345 975U and 345 976B

Railroad mile post: 00T-15.32 – 00T-15.55

Emergency contact: 1-800-232-0144
