Chesapeake Energy . . . . . . . . . . . . . . 65% Phase I Complete. Phase II to be completed once construction gets highway filled to at-grade during construction.

There is no Railroad involvement within the limits of this project.

PROTECTION OF UTILITIES

The relocation of utilities provided in the contract documents has been furnished by the facility owners and/or by reviewing record drawings and may not be accurate. It will be the roadway contractor’s responsibility to locate utilities before excavating by calling the various utility owners and by examining any supplemental information supplied by the cabinet. If necessary, the roadway contractor shall determine the exact location and elevation of utilities by hand digging to expose utilities before excavation in the area of a utility. The cost for repair and any other associated costs for any damage to utilities caused by the roadway contractor’s operations shall be borne by the roadway contractor.

The Contractor is advised to contact the BUD one-call system; however, the Contractor should be aware that owners of the underground facilities are not required to be members of the BUD one-call system. It may be necessary for the Contractor to contact the County Court Clerk to determine what utility companies have facilities in the project area.

DIVISION OF WATER

APPLICATION FOR PERMIT TO CONSTRUCT ACROSS OR ALONG A STREAM
AND / OR WATER QUALITY CERTIFICATION

Chapter 151 of the Kentucky Revised Statutes requires approval from the Division of Water prior to any construction or other activity in or along a stream that could in any way obstruct flow or adversely impact water quality. If the project involves work in a stream, such as bank stabilization, dredging or relocation, you will also need to obtain a 401 Water Quality Certification (WQC) from the Division of Water. This completed form will be forwarded to the Water Quality Branch for WQC processing. The project may not start until all necessary approvals are received from the KDOE. For questions concerning the WQC process, contact John Duvak at 502/564-3410.

If the project will disturb more than 1 acre of soil, you will also need to complete the attached Notice of Intent for Storm Water Discharges, and return both forms to the Floodplain management Section of the KDOE. This general permit will require you to create and implement an erosion control plan for the project.
