

## Construction Memo No. 3-02

**MEMO TO:** Chief District Engineer  
TEBM'S for Construction  
District Construction Engineer  
Resident Engineers  
Active Consultant Engineers

**FROM:** Dexter Newman, P. E. Director  
Division of Construction

**DATE:** April 3, 2002

**SUBJECT:** Durable Pavement Striping Payment

Over the past two years we have made several changes to Durable Pavement Striping Payment. First, we established an acceptance pay schedule for non-specification markings with payment at the end of the proving period. We later adopted a partial payment schedule, 75 percent on work completion and 25 percent upon completion of the proving period with adjustments made for non-specification markings according to the acceptance pay schedule. The current method, as of the January 2002 letting, specifies 100 percent payment upon completion of the work with adjustments made for non-specification markings according to the acceptance pay schedule after the proving period.

By order of this memorandum, the current method of payment should be adopted for all open projects.
