Project Delivery & Preservation, and Engineering Support)
Central Office Engineers and Technical Staff
Active Consultants and Highway Contractors

FROM: Tim Layson, P.E., Director *WTL*
Division of Highway Design

Rachel Mills, P.E., Director *RAM*
Division of Construction Procurement

Matthew P. Simpson, P.E., Director *MPS*
Division of Construction

DATE: August 18th, 2025

SUBJECT: 2025 Standard Drawings Release and Standard Drawing
Communication – Subscribe for Updates

The Cabinet is releasing the 2025 Standard Drawings, which will take effect with the **December 2025 letting**. The drawings will be available on the Division of Highway Design's Standard Drawings webpage:

 [2025 Standard Drawings](#)

Printed copies of the Standard Drawings will no longer be produced. The official version will be the PDF files published on the Standard Drawings website.

A video walkthrough is available to assist users in navigating the updated site, including instructions for sorting, searching, and accessing the drawings:

To support communication, the Division of Highway Design has launched a Standard Drawing Communication tool. This subscription-based email list will provide timely announcements regarding new and revised Standard Drawings, technical clarifications, and other related information. All KYTC staff and external partners are encouraged to subscribe.
