KYTC_Materials Central Office Manager	KYTC_ Materials District Office User
KYTC_Materials District Office Manager	KYTC_Materials Admin

Background:

- The XRay Test Results upload process utility was developed to import test results data into AASHTOWare Project Materials.

Importing Test Results Using XRay

Navigation: Dashboard > Materials > Sample Records

1. From the **Materials** component, click the **Sample Records** link.
2. Search for and select the sample record.
   - **Note**: This sample record must already be created with all tests added to import the test results.
3. Click the **Tests** tab.
4. Click the row **Actions** menu for the test where you want to upload the results data and select the **XRay Data Import with Upload** task.
5. From the **Select Process** component, select the **XRay Data Import with Upload** process.
6. Click the **Execute** button.
7. A new window will appear with the file load modal. Click the **Choose File** button to select the test results to be uploaded. Then, click the **Upload** button.
8. Once the upload is complete, the **Upload Status** will be displayed.

XRay Test Results Upload Utility

Viewing the Output of the XRay Import

Navigation: Dashboard > global Actions menu

1. From the AASHTOWare Project Dashboard, click the global **Actions** menu and select **the Open Process History** action.
2. From the Process History Overview, click the **System Process History** tab.
3. From here, you can find the status of the XRay test results upload, whether it was successful, the start and finish times, and the log file, if available.
