Objective

1. Designate and document, in advance, alternate routes and response plan
2. Implement tools to communicate plan to responders and traveling public
3. Identify agencies responsible for implementing plan

Incident Duration & Plan Implementation

For use only for complete closure of roadway with anticipated duration > 2 hrs, OR lane closures during heavy traffic periods at discretion of KYTC and Incident Command. For incidents with anticipated duration of:

<2 hrs: Local diversion / detour only, decision & implementation responsibility of local emergency agencies responding – i.e. FD, EMA, Law Enforcement.

>2 hrs: Responsibility transitions to KYTC for implementation & maintenance of diversion / detour until roadway is at least partially reopened.

Detour route and termination is ultimately at the discretion of the Incident Command with input from KYTC based of particular incident conditions (hazmat evacuation zone, weather conditions, etc.).
