

I-265 Widening Project
 Between KY 155 (Taylorsville Road) and I-71 in Jefferson County
 KYTC Item No. 5-537
 April/May 2018 Public Survey

Widening I-265 is the State's top priority. During 2017 the KYTC implemented a statewide ranking system of highway projects based on needs: including traffic volumes, congestion, safety, economic benefit, and other factors. The widening of I-265 from four lanes to six lanes ranked as the highest priority project statewide.

Therefore, KYTC is advancing a project to add one 12-foot wide travel lane in each direction of I-265 between KY 155 (Taylorsville Road) and I-71. KYTC is currently advancing other interchange projects on I-265, including the interchanges with I-64 and I-71, but those are separate efforts.

1. What zip code do you live in?

2. What zip code do you work in?

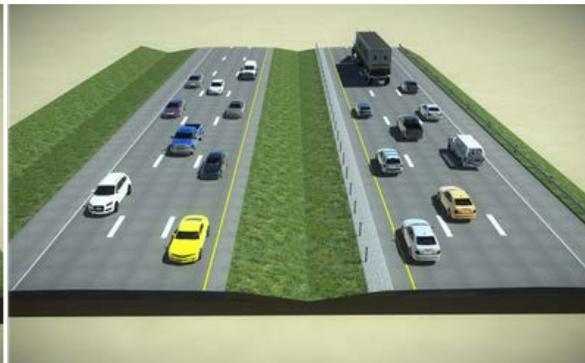

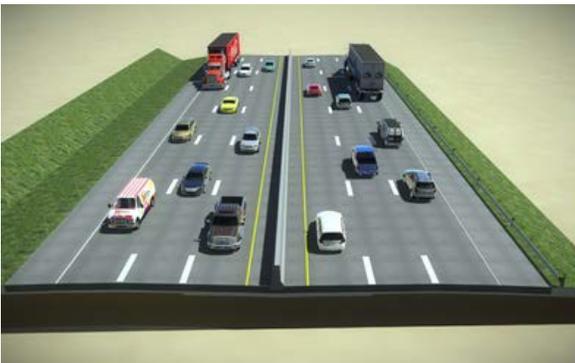

3. How frequently do you travel on any segment of I-265 between KY 155 and I-71? (Please circle one)

- a. Daily
- b. Several Times a Week
- c. Several Times each Month
- d. Less than Once a Month
- e. Almost Never

4. What do you think about the proposed project: adding an extra travel lane for each direction? The below images show how six lanes could fit within the existing right-of-way, which varies along the corridor: (Please circle one)

- a. Strongly Oppose b. Oppose c. Have No Opinion d. Support e. Strong Support

5. Why do you support/oppose the project?

6. How did you find out about this study? (Please circle one)

- a. Newspaper/Media
- b. Facebook
- c. From a Friend
- d. KYTC website
- e. Other

7. Do you have any other comments or suggestions about the project? If so, please enter here:

Thank you for your feedback!
