

**Cardno**  
Shaping the Future

**US 62**

Profile view showing elevation (600 to 760) versus stationing (36+00 to 62+00). The profile includes a dashed green line for the existing ground and a solid red line for the proposed road grade. Key features include a 2.50% grade section, a 5.00% grade section, and a 3.00% grade section. Vertical curve data points are labeled: VPI 38+28.31, VPI 40+50.00, VPI 42+77.50, VPI 44+84.83, VPI 46+27.33, VPI 49+81.72, VPI 50+74.50, VPI 52+35.00, VPI 54+50.00, VPI 55+61.50, and VPI 57+60.00. The profile also shows various points of interest (POI) and points of vertical intersection (PVI).
