When will this work take place?
Construction is anticipated to begin no earlier than January 2017.

What are the project goals?
- Blend the new roadway seamlessly with its surroundings while solving congestion and safety issues
- Improve roadway safety
- Improve economic development and roadway capacity to accommodate future traffic volumes
- Improve mobility within the community
- Accommodate pedestrian and bicycle traffic

What are the next steps?
After the public meeting, the following steps are to be taken for this project.

1. KYTC will review and consider all comments received.
2. KYTC will hold a Citizen Advisory Committee (CAC) meeting later this year. The project team will then meet and review all comments received to help select a preferred alternative to proceed with towards final plans.

Comments, Questions, and Questionnaires
Comments and questions regarding this project may be submitted through a questionnaire provided at the public sign-in table. Please leave the completed form in the box near the sign-in table as you leave, or take the form home with you and submit it prior to November 10, 2015. Or take the online version of the questionnaire using the web link at the bottom of this page.

The Transportation Cabinet (KYTC) welcomes you to a public meeting for the Northwest Versailles Mobility Corridor Extension. The reason for this meeting is to present three alternatives for this project, and to allow the public to select a preferred alternative and comment on these alternatives.

KYTC appreciates your involvement in this project, and we encourage you to visit the information displays and speak with the project team members. Please take the time to look around, ask the design team questions, and leave comments as necessary. Please leave comments in the box near the sign in the table as you leave or take the form home with you and submit it at a later date.
