### Wide load restrictions in place for the Natcher Parkway in Butler County

**BOWLING GREEN, Ky.** (Aug. 3, 2018) – The Natcher Parkway will be down to one lane with wide load restrictions in both directions between exit 29 and exit 36 in Butler County beginning Monday, August 6. Wide loads will be restricted to 10 feet or less. Any wide load more than 10 feet will need to detour at exit 29 for northbound and exit 36 for southbound.

The restriction is expected to remain in place for a month or longer. The restriction is necessary as crews are working on a Natcher Parkway rehab project to repair and resurface the roadway in this section.
