

A CLEAN CAR IS A SAFER CAR

1

WASH AND WAX

Defends against ice, salt, sand, and slush. Make sure to get the underbelly to avoid rust.

2

CLEAN WINDOWS

Keep your view as clear as possible.

3

KEEP WINDSHIELDS CLEAR

Apply water repellent on the outside of the windshield. Use an anti-fog product on the inside of the windshield.

4

CLEAN THE HEADLIGHTS

Brighter lights help you see, and be seen, in wet conditions. Replace them if they are dim or cloudy.
