

SCROLL DOWN TO FIND YOUR COUNTY

Dear Jefferson County Public Schools,

The Kentucky Transportation Cabinet (KYTC) is holding our first-ever statewide Paint the Plow program to promote safe driving during snow and ice season, and we are inviting you to participate.

Paint the Plow is an opportunity for your high school art students to paint one of our snowplow blades.

The number of available blades we have available in KYTC District 5 – Jefferson County is limited to 2.

Applicants for Jefferson County will be chosen at random and those selected will receive an email to confirm participation. Once participants have been notified and confirmed, KYTC will need a design for the blade. Prior to the blade being dropped off at your school, the design **must** be approved by KYTC staff.

Faculty may assist in creating the design, but only students should participate in painting the design **without alteration**.

Consider the following when applying your design to the blade:

- The blade is approximately 12' wide and 4' high
 - The top foot of the blade is blocked from view due to a rubber strip
- Use enamel paints with bright backgrounds
- A final clear coat will help extend the life of the painting
- No materials other than paint can be applied to the plow blade
- Schools are responsible for purchasing paint and supplies

Please follow these guidelines when creating your design:

- The **approved** design must be applied with no modifications
- Designs and messages should focus on road safety/winter weather
 - The design can include the school logo and school colors
 - Consider the following slogans for a snow and ice theme:
 - *No Device in Snow & Ice*
 - *Slow Down when Snow's Down*
 - *Snow means Slow*
- The designs must be PG in nature
- They will not include political, partisan, violent, or lewd images
- No copyright, pop-culture references, movies, songs, celebrities, etc.

Please fill out the application form here: <https://forms.office.com/g/T0ZquqQjpu> by **Friday, September 1**, if you would like to participate.

You will receive confirmation of your participation status from morgan.woodrum@ky.gov the **first week of September** at which point you will have until **Friday, September 15**, to submit and have a design approved. Once the design is approved, we will coordinate a drop-off and pick-up time with the point of contact.

Blades will be picked up no later than **Friday, October 6**, and an announcement of all the plows will go out **November 6, 2023**.

-KYTC District 5

Dear Franklin County Public Schools,

The Kentucky Transportation Cabinet (KYTC) is holding our first-ever statewide Paint the Plow program to promote safe driving during snow and ice season, and we are inviting you to participate.

Paint the Plow is an opportunity for your high school art students to paint one of our snowplow blades. **The number of available blades we have available in District 5 – Franklin County is limited to 1.** Therefore, we can only operate on a first-come, first-served basis.
