

CEMETERY GRAVE RELOCATION

Come discover how the KYTC brings acknowledgement back to generations once forgotten through a respectful grave relocation process. In this presentation, you will see a Lewis County cemetery rescued from a cattle pasture and given back the recognition it deserves.

“Cemeteries tell stories about a community – its past, its people and perhaps its values. But they also tell us about the present – the desire to preserve, remember and interpret that past often in the wake of immense challenges.”

- Aaron Shapiro
