Dear Historic Preservation Representative,

Challenges

- Doesn't Address State-Funded Projects with other Federal involvement (Corps Permits, etc.)

- Complicated to filter through 6YP projects to keep Active Projects list up-to-date

- No elegant way to incorporate Consulting Parties already approved prior to July 2013

Benefits

- Useful for both large-scale and small scale projects
- Could apply on the spot if laptop and internet connection are available at a public meeting
- Applicant keys in information – better accuracy
- Accelerated review times
- Robust record storage
