

Creating the KYTC folder for XML Reports

For tiered MicroStation-InRoads:

- C:\Program Files (x86)\Bentley\
- Navigate to the above location and select the version of InRoads you are using (InRoads Group...) then select the "XML Data" folder and then select the "en" folder.
- Place the KYTC folder in this location

For PowerInRoads:

- C:\ProgramData\Bentley\Civil\ReportBrowser\
- Navigate to the above location and select the version of Power product (i.e. 8.11.9) you are using and then select the "en" folder.
- Place the KYTC folder in this location.
