5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

NO

J.1

6. As the selected alternate moves forward, do you have recommendations or information to offer?

Additional Comments:

I-5

We have been informed that the road will be as close as 75 ft from our home we have 4 mental kids which we believe will put these kids in danger if the road is going to be that close to the home we would rather sell the home and land and move else where in the country where the road is not near my kids

COMMENT FORM

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

Wonder about the dismissal of "1a" alternative
 also about environmental disruption of 3 alternative
 scenic road designation - what happened to it?

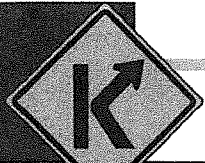

6. As the selected alternate moves forward, do you have recommendations or information to offer?

Is this a priority road to low volume, with alternative routes available.
 Two road "old" & "new" pose future costs particularly for local government.

Additional Comments:

Worry - that this is a retooled version of the "645" corridor idea.
 Am perplexed @ lack of cost data presented

There is the appearance of "gassed" process in favor of heavy construction alternative

Additional Comments:

My Comment Leave 32 Road Along
 We have Travel For 100 of years
 Keep the money For other things
 if You have to Fix It Leave Current
 Road Open So that if We Want to
 Use It to visit Our Neighbors. that We
 dont have to Travel 5 miles for a
 visit Only 2 minutes from us
 Also dont need to have all of that
 Brush Burning Like down on The
 Project. A lot of folks are very
 Allergic to smoke for 1 my son.

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

Alternative 3 is good

A

6. As the selected alternate moves forward, do you have recommendations or information to offer?

C

⑤ Yes, No section of old Ky 32 should be closed after New Ky 32 is opened. Closure would inconvenience locals from adjoining farms or neighbors, disrupt local neighborhood relationships.

Additional Comments:

⑤ I heard affected property owners being concerned about having enough space left by their homes to install a new sewer system when the new road removes their old system.

I.4

Thank, Don Howard

COMMENT FORM

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

Documentation of public vote re. the alternatives. I have attended these public meetings for many years and I do not believe the public wants a new road, only some improvements on the current road. D.5

6. As the selected alternate moves forward, do you have recommendations or information to offer?

Yes, cancel it, use the money for new bridges in KY and road maintenance. D.4
 ⑤ \$105,000,000 for 400 cars/day is unsupportable.

Additional Comments:

⑤ Rt 32 South could be a scenic by-way and a source of tourist dollars. At+ 3 will destroy that potential. It will be fast and loud, like the ugly Laurel Gorge bridge. Please don't let Rocky Atkins force this on us! E.2

COMMENT FORM

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

I feel the enormity of the change for all those living along the road has not been addressed. It should be clear who really wants this road to be so sweeping - for it is not clear. D.3

6. As the selected alternate moves forward, do you have recommendations or information to offer?

The beauty of Elliott County is not just a pass-through-it experience. It is always our environment that gets short-changed - the future being eaten up by the here & now. E.2

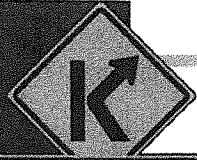

Additional Comments:

I am stunned to hear it proclaimed that by spending \$100,000,000 of federal & state money that it will make the transit 6 MINUTES FASTER. That is an embarrassing statement of mixed-up priorities. I worry that because the alternative three would be a 55 mph road that speeding trucks & cars will cause way more accidents than occurs currently - which are few. F.2 (5)

Elliott County needs to have access to ~~could use~~ matching funds for stronger education opportunities, job training and environmental protection.

Additional Comments:

I.1

The boundary line on the north side of the farm as shown on the selected alternate map is incorrect. Our neighbor on that side changed the boundary at the PVA office. As a result, the boundary line was corrected and settled by mediation with lawyers and a judge as mediator. The land was surveyed before mediation. A corrected PVA Map is included in this letter.

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

A

No - I am particularly impressed with attention to environmental impact, to preserving the ^{Scenic} ~~Some~~ beauty of this beautiful county

(5)

6. As the selected alternate moves forward, do you have recommendations or information to offer?

No J.1 BUT Brown Ridge is really "Vomit ridge" in my neck of the woods!

Additional Comments:

The video was a great touch. Thank you for that.

When is the project set to start?

A

I usually go to Morehead via KY 173, but will be delighted when I can use "alternative #3" instead, especially in the winter months

Thank you for the time & effort put into this project

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

from bottom*

- occasion our grand daughter stay one night. It would be better for them to get on the bus at ~~the~~ or near our house

6. As the selected alternate moves forward, do you have recommendation information to offer?

1.2

I am the individual who lives on the Hyman Rd. with the apple orchard. As I reviewed the plan I expressed concern regarding the proposal to remove 32 pavement below my house thereby requiring me to enter the new road at the 173 - 32 Intersection at Wagner's Corner. I expressed to Mitch Thuman + Barb Bryant - what I considered a better proposal in that RD 32 could be terminated at some point above my house and thereby eliminating winter efforts at snow removal + general maintenance. This would require access for me below my house so I could get on the new corridor. I do have a producing apple orchard + rely on easy access in the fall for prospective customers. My apple business would be severely restricted if the access to my property was via the 173-32 Wagner's Corner point. Please consider my request regarding this matter - I do appreciate the attention + the focus of interest I received from Mitch + Barb at the public meeting on 6/27/10. I truly felt these gentlemen listened to me + to my wife as we expressed our concerns. I hope a positive resolution regarding our concern will be reached. — See top! Also on

32

COMMENT FORM

5. Now that you have reviewed the information gathered and studied, do you think anything else should have been included in the selection of a preferred alternative?

In a meeting in 2011, alternate 1-A was listed as being the least expensive. It would have saved the taxpayers a lot of money. However, I realize the Dept. of Transportation is going to build a complete new road, no matter what the public wants.

D.2

6. As the selected alternate moves forward, do you have recommendations or information to offer?

no.

I.6

Additional Comments:

I find it absurd that in order to preserve a log house that has not been lived in for almost 60 years we have to sacrifice a large portion of land and a modern up to date house, when last lived in, the log house was unfit for human habitation. The health dept. would have condemned it. In contrast, we have spent over \$10,000⁰⁰ in improvements and upgrades on our house over the past five years. I only hope the road can be changed enough to not take our house. we appreciate your efforts to help in this situation.

NEEDS MORE DISCUSSION
