Plan Processing Technical Advisory Memo

TO: Chief District Engineers
Design Engineers
Active Consultants

FROM: William L. Greene 
Administrative Branch Manager
Plan Processing Branch
Division of Highway Design

DATE: November 7, 2012

SUBJECT: Kentucky Standard Specifications for Road and Bridge Construction
Section 610.04.05 Rewrite

Please be advised, there has been a change in the 2012 Kentucky Transportation Cabinet's Standard Specifications for Road and Bridge Construction. This change is a rewrite of section 610.04.05. The new specification states simply: **"Headwall. The Department will measure the quantity as each."** Due to this change we will no longer bid headwalls as cubic yards of concrete and pounds of steel. They will now be bid as each. Also, bid items 01200-01221 "Pipe Culvert Headwall, Size Each" has been created. Please use these new bid items in future bid item selections. If needed, please use a supplemental description to denote special instructions such as degree of skew.

For your convenience a listing of the new bid codes is attached.
