The proposed project would to improve KY 1286 (Friendship Road) from US 45 (Lone Oak Road) to US 60 on the west side of Paducah. Proposed improvements widen lanes and shoulders, improving several sharp curves. The purpose of the project is to improve safety and traffic operations. KYTC is considering a range of alternatives including No Build. Design efforts and environmental studies are underway, to be completed later this year. These will help KYTC define the costs and impacts associated with the proposed project.

The purpose of this meeting is to get input from the public on the proposed project, to assist in this decision-making process. KYTC is seeking your input on alternative preferences and to gain an understanding of important community and environment resources. Handouts containing information about this project, comment sheets, and displays will be available at the meeting. The meeting will be conducted in an open format with no formal presentation. Representatives from the KYTC and their consultants will be available to answer questions. Written and oral comments will be accepted during the meeting.
