The Kentucky Transportation Cabinet has scheduled a Public Information Meeting to present plans for the proposed construction of a new interchange (Exit 55) on the Hal Rogers Parkway in Perry County. The project area extends from Milepoint 54.9 to Milepoint 55.1.

The purpose of this meeting is to share the design with the public prior to the start of right-of-way acquisition. Attendees will be able to review maps and displays, ask questions, and provide general feedback to project team members. This meeting is informal and open-house format—no presentation will be given, and participants may attend at any time between 5:00 PM and 7:00 PM.

Both written and verbal comments will be accepted during the meeting. Comments received will help the project team refine the plans before moving into the right of way phase.
