BID ITEM NOTES

GUARDRAIL-STEEL "W" BEAM (SINGLE FACE BR). The bid unit for this item is to be linear feet. This item shall include the Rolling System Type II that is to be installed on the bridge between the endmost posts attached to the bridge and all labor and incidental services necessary to properly install the rolling system. For non-composite box beams, the rolling system is attached to the beam prior to shipment.

GUARDRAIL-STEEL "W" BEAM (SINGLE FACE AS). The bid unit for this item to be linear feet. This item includes the W-Beam guardrail 12ply for extra strength, guardrail posts, offset blocks, hardware, and labor and incidental services necessary to properly install the approach guardrail within the 25'-0" limits of which corner of the structure. For guardrail components, refer to Standard Drawings BGR-001, RRA-005 and RRA-006.
