

Adding an Item to the Favorites Menu

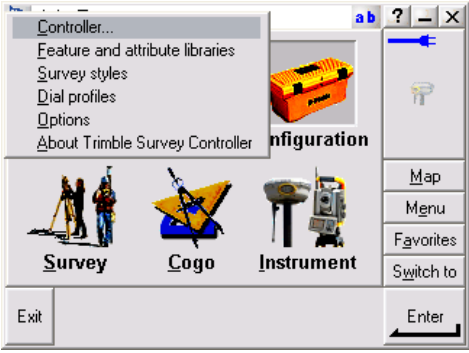

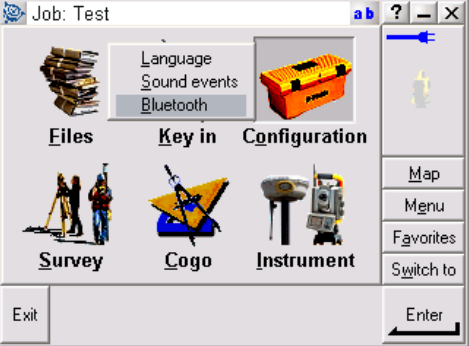

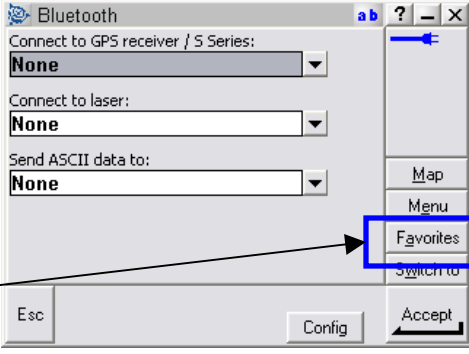

Introduction The Favorites menu provides quick access to commonly used screens and to various commands when connected to a conventional instrument or GPS receiver. This can reduce the number of button pushes required to access a commonly used screen. Using this function will create a “shortcut” to a particular screen or command.

In this example you will learn how to create a favorite (shortcut) that will access the Bluetooth screen using a minimum of button presses.

Step	Action	Display
1	<ul style="list-style-type: none"> • Turn on the TCS2 controller. <p>Before we can add a Bluetooth favorite, we must first proceed to the page that we will be adding.</p> <p>On the TSC2 controller:</p> <ul style="list-style-type: none"> • Tap on Survey Controller from the Windows screen. <p>This starts the Trimble Survey Controller program.</p>	
2	<p>From the Main menu of the Trimble Survey Controller program:</p> <ul style="list-style-type: none"> • Tap on the Configuration icon. <p>This opens a pop up menu.</p>
