Good Morning KTRAC,

Thank you to everyone that applied. Our office will be going through and reviewing the applications. During this review, we may send them back to you for some modifications. If that happens, we'll make sure to let you know what we are hoping to clarify or alter.

I'd like to have a KTRAC meeting for the applicants to present their proposals. I will send out a poll about meeting times for us to meet this month or early next month.

Have a good day,
Ed

Subject: RE: Kentucky Office of Highway Safety Now Accepting 2024 NHTSA Grant Applications

Good morning everyone.

The application deadline is approaching for the traffic records improvement grants.
Many of you have applications entered.

I know some of you have to get additional levels of approval in your organizations before submitting your applications. If you are planning to apply and have not gotten the needed approvals on your side, please go ahead and start your application in IGX so that KOHS knows to expect it.

Sincerely,
Ed

Office of Highway Safety Now Accepting 2024 NHTSA Grant Applications

The Kentucky Office of Highway Safety (KOHS) is **now accepting** applications for both Law Enforcement and Non-Law Enforcement traffic safety grants.

Who can submit an application?

Local and State Law Enforcement Agencies, Institutions of higher education, and Non-Law Enforcement Agencies such as Health Departments and Hospitals.

What are NHTSA Highway Safety Funds?

The grant funding is supplied from the National Highway Traffic Safety Administration (NHTSA) and the Kentucky Office of Highway Safety (KOHS) is the primary grantee / administrator of the NHTSA grant funds in Kentucky.

When can agencies submit an application?

Agencies can submit applications now through **01/31/2023**.

Where can agencies submit their applications?

The KOHS uses an online application and claim submission system.

[KOHS Online Grants Management System \(IGX\)- click here to access it](#)

Manual for reference - [IGX Grantee Registration And Application Manual.pdf](#)

Why are these grants available?

The NHTSA funds are awarded to sub-grantees thru KOHS:

- to help reduce crashes, injuries, fatalities and associated cost
- by identifying transportation safety issues and developing implementing effective integrated programs and activities.

How do I submit an application?

Potential grantees log into (or create a new login) to the online submission system IGX. Once there, the My Opportunities panel will display the 2 different types of applications. You will click on the application and start filling it out. Once you have completed the application, you will submit the application. The application will ask for information regarding:

- Problem Statement
- Data

- Goals/Objectives
- Tasks/Activities/Milestones
- Budget
- Plans for Cost Sharing

How do these grants work?

Grants reimburse actual costs to grantees that they have incurred and paid during the grant cycle.
