KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

Prior to July 1, 1987, Kentucky's Uniform Crime Reporting System was based on the accumulation of a monthly summary of criminal offenses and arrests by state and local law enforcement agencies. The data submitted was sufficient for broad analysis of general crime trends, however, it did not provide necessary tools for detailed studies required to meet the needs of criminal justice professionals, the law enforcement community, and Kentucky Legislators. **After July 1, 1987**, law enforcement agencies were required to submit "incident" information which differed from "summary" in that it provided full detail crime specifics. This marked the beginning of Kentucky's Incident Based Reporting System, which required the submission of either the Uniform Offense Report (UOR1) or the uniform data elements as contained in the statewide database. The state has been certified for National Incident Based Reporting System (NIBRS) reporting, which is already taking place in selected law enforcement agencies. As more agencies become technologically able to submit incident based information, our crime data will become more complete – thus greatly enhancing our query capabilities.

1998

In an effort to improve the quality of the Crime in Kentucky publication, several adaptations were made in 1998 data reporting and have continued through 2011. These changes are in accordance with UCR guidelines and will affect the ability to compare numbers published in the 1998 through 2011 reports with previously published data. In a multiple-offense situation (committed by the same person or group of persons) the Hierarchy Rule is applied. This requires counting only the highest offense for statistical comparison purposes. This applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts. An exception to the Hierarchy Rule is Arson, in which each offense (even in the case of multiple charges) is counted for statistical analysis.

2011

Previous versions of the Crime in Kentucky publication have provided data in the format of Part I and Part II crimes. Definitions of Part I crimes were listed on individual offense pages and statistical information was provided in regards to the particular offense. In an effort to reflect the standards of reporting and information gathering that the FBI uses when compiling data, the Kentucky State Police repository has moved from a Part I and II crime reporting format to a Group-A and Group-B format. Any dramatic increases or decreases in numbers for this year compared to previous years may be linked to this reason. It should be noted that summary agency data is not included in Group-A and Group-B format. There is a "Summary Agency" section located in the back of this publication for statistical purposes.

Group-A crimes consist of 22 categories and comprise the more serious offenses such as Homicide, Robbery, and Arson. Of these 22 Group-A categories, there are 46 subcategories that fall under them; this would include a breakdown of the serious offenses to describe the different types of crimes that fit into each category – As an example: Aggravated Assault, Simple Assault, and Intimidation all fall under the Assault Offense category. Impersonation, Welfare Fraud, and Wire Fraud would all fall under the Fraud Offense category. Just as Part I crimes were listed on individual offense pages in previous publications, Group-A crimes have been listed in the same fashion. Each of the 22 Group-A offenses have their own page with a breakdown of their stats and a definition to describe the offense.

Group-B crimes consist of the less severe offenses such as Bad Checks, Drunkenness, and Disorderly Conduct. This group contains 11 different categories, including **All Other Offenses** for those Group-B crimes that do not fall directly into a specified offense.

TOTAL GROUP-A OFFENSES	**198,889**	**100%**

The total number of Group A crimes reported by law enforcement agencies in Kentucky during 2011 is shown in the chart above. These overall statistics reflect only offenses reported to or known by the police.

Higher numbers may be the result of the way crime is being reported this year versus previous years with the change from Part-I offenses to Group-A offenses, as well as reporting from some agencies in 2011 that did not submit data in 2010.

When making comparisons between years, the following should be taken into account: (1) Data is not inclusive of all offenses reported to the police; (2) Increases or decreases in the number of crimes reported can be attributed to a variety of factors, including methods of reporting and tabulating on the part of law enforcement agencies; (3) Differing levels of citizen awareness and their responsibility to report crimes have a direct impact on the number of reports received by police.

In viewing and comparing this data, it should be noted that these crime statistics are being reported by the number of victims rather than the number of offenses against the same victim. In keeping with Uniform Crime Reporting guidelines, the Hierarchy Rule is applied in multiple-offense situations. An exception to this rule is Arson, in which each offense (even in the case of multiple charges) is counted for statistical analysis.

KENTUCKY "CRIME INDEX" = 4,424.04

The crime index, or rate, is used nationally and is derived from the following formula:
Population divided by 100,000 = X
Number of offenses divided by X = Crime Index
Kentucky's crime index for 2011 is based on the current estimated population of 4.36 million.

A SERIOUS CRIME OCCURS IN KENTUCKY EVERY 2 MINUTES 38 SECONDS

Below, Group-A offenses are shown for those cities with over 10,000 in population.

CLEARANCE RATES

Clearance rates are the percentages of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for property crimes can be attributed to the difficulty of the victim identifying the perpetrator.

The pie charts below depict the relative clearance rates of property versus violent Group A crimes.

NUMBER OF EMBEZZLEMENT OFFENSES	CLEARED	CLEARANCE RATE
0	0	0%

**** Disclaimer**

There is a variation between embezzlement numbers for 2011 compared to previous years because of the way the offense is considered in Group-A crimes versus Part-I crimes. As an example, Kentucky sees the scenario of an employee stealing an item under $300.00 in value to be Theft By Unlawful Taking; the FBI, however, considers it to be Embezzlement because the offender was an employee of the victim at the time of the offense. As a result of this form of reporting, there is no data to represent Embezzlement for 2011. Any numbers that would fall into the embezzlement category for the FBI are grouped with larceny offenses.

ROBBERY

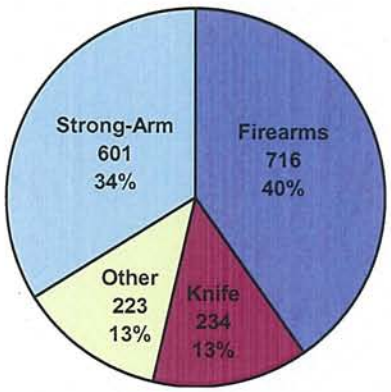

DEFINITION

The taking or attempting to take anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

NUMBER OF ROBBERIES	CLEARED	CLEARANCE RATE
1,774	534	30%

Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong-arm tactic is always present. The 31% clearance rate for robbery is higher than other crimes motivated by the theft of property, but low in comparison to murder and assault in which the element of personal confrontation is also present. This is attributed to the fact that the perpetrator usually conceals his personal identity from the victim.

REPORTS TO THE DEPARTMENT FOR COMMUNITY BASED SERVICES (DCBS)

The 1976 Kentucky General Assembly enacted KRS 209, the Adult Protection Act, which mandates reporting any known or suspected cases of adult abuse, neglect or exploitation to the Cabinet for Health and Family Services, Division of Protection and Permanency, Department for Community Based Services (DCBS). DCBS protective and support services are provided to adult victims upon request. In 1978 the statute was expanded to include the mandatory reporting and delivery of voluntary protective services to victims of spouse abuse. Law enforcement agencies continue to serve as the primary reporting source to DCBS and often work together in responding to violent families.

SUMMARY
AGENCIES

Summary Agency

This is an agency that has not met the FBI NIBRS certification. These agencies submit their statistical crime data to the Kentucky State Police as Part I and Part II crimes. Part I crimes are the most serious crimes as chosen by the FBI (See glossary for a detailed list). Part II crimes are considered less severe (See glossary for a detailed list).

NIBRS Agency (National Incident Based Reporting System)

An agency that has met the FBI requirement for NIBRS based crime data submission. This is based on Group A and Group B crimes as defined by the FBI. Group A and Group B crimes are more defined than the older Summary method. NIBRS can better define crime into more specific categories (See glossary for a detailed list).

2011 began with eight agencies submitting Summary crime data. Six of those agencies became NIBRS certified within the year.

Currently, two departments remain as Summary Agencies.

ELECTRONIC FINGERPRINTS

2011 Electronic Fingerprint Submissions by Facility

KRS 441.046 mandates that persons in adult or juvenile detention facilities to be fingerprinted. KAR 14:010 further defines the responsibility of the Kentucky State Police Automated Fingerprint Identification Section (AFIS) to maintain and store all fingerprint submissions.

When any person is arrested in the state of Kentucky the data that the facility submits from a LiveScan is actually what is captured to populate an individual's criminal history. Within seconds of submitting a set of fingerprints their identity/alias is confirmed and their criminal arrest information is added to any previous record. Also, their fingerprints are searched against the state wide "unsolved cases" latent file, and then finally forwarded to the FBI to search the federal unsolved latent file, including warrants from other states, and the federal criminal database. It is absolutely crucial to submit the best quality fingerprints possible accompanied by arrest data that is accurate. As a matter of fact, if an arrested individual goes without being fingerprinted or is submitted with poor quality fingerprints, that arrest will never be added to their criminal record.

Listed below is a list of all detention facilities in the state and the number of fingerprints submitted to the Kentucky State Police in 2011.
