July 1, 2025

Dear Kentuckians,

Each day, brave law enforcement officers across our commonwealth report for duty with a mission of creating safer communities. We owe them our deepest appreciation and gratitude. Thank you to our officers for answering the call of public service and working to make Kentucky a national leader in public safety. Your service has reduced recidivism, decreased overdose deaths, rebuilt communities after devastation from natural disasters and helped to end generational cycles of crime.

As Governor – and as a dad – my top priority is to create a New Kentucky Home that is safe for everyone to live, work and learn. This work began during my first term in office, and I am committed to remaining focused on this mission every day forward.

The 2024 Crime in Kentucky report is an indicator that we are turning our progress into prosperity. According to this report, we have decreased serious crime by more than 7% compared to the previous year. This includes decreases in homicide offenses, kidnapping/abduction, drug/narcotic offenses, and sex offenses. While is great news, we still have work to do and the Beshear-Coleman administration remains focused on enhancing public and officer safety, while ensuring a better commonwealth for future generations.

I am proud to work alongside our local, state and federal partners to create a safer commonwealth by fighting crime and ensuring resources are available to agencies and organizations who work at the ground level to prevent crime from occurring.

I am proud to work with each of you as we make Kentucky a safer place for everyone. Many have given their lives in the name of a safer commonwealth, and I will never forget their sacrifice. It is in their honor we continue to make our New Kentucky Home as safe as it can be.

Sincerely,

Andy Beshear
Governor

A summarized total of Group A crimes reported by law enforcement agencies in Kentucky during the previous year is shown in the chart above. These overall statistics reflect only offenses reported to or known by the police at the time of publication.

When making comparisons between years, the following should be considered: (1) This is only a snapshot of offense data at the time of publication and data are subject to change as new information or updates are received. (2) Data may not be inclusive of all offenses reported to the police; (3) Increases or decreases in the number of crimes reported can be attributed to a variety of factors, including methods of reporting and tabulating on the part of law enforcement agencies; (4) Differing levels of citizen awareness and their responsibility to report crimes have a direct impact on the number of reports received by police.

State reporting vs. Private reporting: All law enforcement agencies in KY submit offense data via NIBRS, (National Incident Based Reporting System). This is done either through the State provided system, "KYOPS," or through a private Incident Based Reporting System (IBR). During the 2024 reporting year, 4 departments submitted data through their own IBR system: (Louisville Metro Police Department, Winchester Police Department, Owensboro Police Department, and Nelson County Sheriff's Department).

It should be noted that slight variations in totals can be found based on how the state processes offense data received compared to how private reporting agencies submit data. This can be due to certain factors such as when data are received, how frequently offense data are updated, the date stamp attached to submitted files, and whether past year incidents are included with current year records as updates. As such, to ensure this report reflects the most accurately reported numbers at the time of publication, the system generated records for these departments have been replaced with verified totals approved by the individual private reporting agencies.

Private Incident Based Reporting Data

The statistics provided in the *Crime in Kentucky* publication are based on offense and arrest data submitted to the Kentucky State Police (KSP) by law enforcement agencies throughout the Commonwealth.

KSP requires that offense data be submitted in accordance with the FBI's National Incident-Based Reporting System (NIBRS) specifications.

NIBRS data are submitted electronically to the state through one of two methods: via the state's free reporting tool, KYOPS, or through an agency's own private Incident-Based Reporting (IBR) system. Agencies using their own systems are referred to as "IBR agencies."

The statistics presented in the *Crime in Kentucky* publication represent a snapshot of offense and arrest data at the time of release. Reports received after the release date, or updates to previously submitted data, may affect prior totals. Therefore, data are not static and are subject to change after publication. Additionally, the way data are submitted through private IBR systems can impact totals — for example, through rejected incidents (those that fail to meet NIBRS specifications), or when a file's date-stamp is later than the incident year being reported.

To ensure the most accurate representation of crime, data which are not pulled from the KYOPS system will rely on verified numbers approved by IBR agencies, rather than system-derived figures from file submissions. As of this publication, only four agencies use their own IBR systems for submitting offense data to the state: Louisville Metro Police Department, Winchester Police Department, Owensboro Police Department, and Nelson County Sheriff's Department.
