5	13,614
6	29,086
7	25,238
8	10,955
9	33,603
10	21,421
11	29,800
12	28,418
TOTAL	313,309

PROGRAM UPDATES

The OMS upgrade is currently being implemented on a district by district basis. Eight districts have completed the process. Remaining districts (1, 2, 4, and 7) will be contacted to schedule training and receive devices with new software. Please try to have all necessary personnel available for training.

Nighttime visual inspections have begun in some districts. Inspection forms, inspection results entry forms and reporting are available in OMS to help districts with this process. The sign inventory viewer is available at: <http://kytcmaps.kytc.ds.ky.gov/signviewer/> Feedback from the NTVI process will be used to improve supporting material.

Available roadside inventory includes contract collection entered into the system to date and signs installed with mobile device. Activity summary counts represent signs manufactured and installed with barcodes and mobile devices. Activity dates represent the most recent date a barcode or mobile device was used.

ACTIVITY SUMMARY (SINCE SEPTEMBER 1, 2014)

DISTRICT	DATE OF LAST SIGN MANUFACTURE	SIGNS MANUFACTURED	VALUE	DATE OF LAST SIGN INSTALLED	SIGN FACES INSTALLED	VALUE
