

The Kentucky Truck Parking Assessment and Action Plan compared truck parking demand and capacity, highlighting critical truck parking needs across the state. The needs were examined at the interchange and corridor levels, and potential capacity expansion sites within existing KYTC right-of-way were identified. The sites were ranked based upon

localized need, site suitability, and the availability of parking along the corridor. The unmet parking demand in District 4 and adjacent areas is shown on **Figure 1**. Truck parking expansion sites considered in District 4 are shown on **Figure 2**.

I-65 MM 55.0 SB Hart County Number of New Spaces: 79 Number of Existing Spaces: 0 Cost Estimate: \$7,690,000 Site Description: Closed Parking Proposed Schedule: Beyond 2029 Site ID: 113

I-65 MM 60.3 NB & SB Hart County Number of New Spaces: 54

Number of Existing Spaces: 232 Cost Estimate: \$3,020,000 Site Description: Rest Area Proposed Schedule: Beyond 2029 Site ID: 117

I-65 MM 64.3 NB & SB
Hardin County
Number of New Spaces: 58
Number of Existing Spaces: 0
Cost Estimate: \$3,600,000
Site Description: Interchange In

Site Description: Interchange Infield Proposed Schedule: Beyond 2029

Site ID: 185

BGP MM 20.4 EB & WB Nelson County Number of New Spaces: 18 Number of Existing Spaces: 0 Cost Estimate: \$1,720,000 Site Description: Interchange Infield Proposed Schedule: Beyond 2029 **Site ID: 125** I-65 MM 89.7 NB

I-65 MM 89.7 NB
Hardin County
Number of New Spaces: 16
Number of Existing Spaces: 0
Cost Estimate: \$2,211,000
Site Description: Closed Weigh
Station
Proposed Schedule: Beyond 2029

Truck Parking Needs

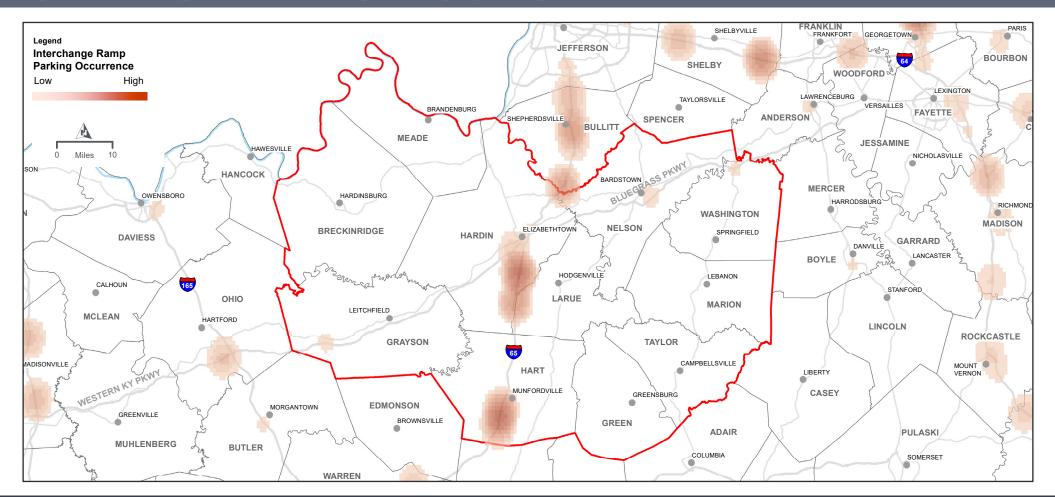

Truck parking needs were prioritized across the state based on unmet demand at a location and/or in an area, the extent of ramp parking, frequency of parked truck crashes, and the number of trucks parked at big box stores. The top truck parking unmet demand in District 4 are shown on **Figure 1**, and information on the areas scoring in the Top 100 statewide are included to the right.

District Need Rank	Corridor: I-65 MM: 86 County: Hardin	Need Score (Out of 1): 0.56 Statewide Need Rank: 13	District Need Rank	Corridor: BGP MM: 25 County: Nelson	Need Score (Out of 1): 0.50 Statewide Need Rank: 20
District Need Rank	Corridor: I-65 MM: 90 County: Hardin	Need Score (Out of 1): 0.53 Statewide Need Rank: 18	District Need Rank	Corridor: I-65 MM: 58 County: Hart	Need Score (Out of 1): 0.48 Statewide Need Rank: 25
District Need Rank	Corridor: I-65 MM: 60 County: Hart	Need Score (Out of 1): 0.51 Statewide Need Rank: 19			

Ramp Truck Parking and Safety

The study quantified the extent of ramp truck parking and the negative safety impacts of trucks parking on ramps. The statewide total number of parked truck crashes on or near interstate and parkway ramps was 115 over 5 years. The societal cost of those crashes was nearly \$60 million. **Figure 3** illustrates that there is no reported nightly occurrence of truck parking on interchange ramps in District 4. A primary desired outcome of the project is to address this safety related issue.

Figure 3. Interchange Ramp Truck Parking (1 AM Nightly Average)

Project Outcomes and Benefits

The ultimate goal of implementing the Action Plan is to eliminate truck parking on Interstate ramps and mainline shoulders and address overcapacity rest areas and weigh stations. These changes will yield many benefits including:

- 1. improved safety for truck drivers and the traveling public;
- 2. enhanced security for truck drivers and their cargo;
- 3. increased trucking efficiency, reliability, and productivity; and
- 4. reduced congestion, truck vehicle miles traveled, and emissions.

The Kentucky Truck Parking Action Plan does not recommend the design and construction of any parking area expansions within the next three biennium periods in District 4.
