

Reconnecting Central Portland to the Riverfront

Appendix C - Demographic Data

Demographic data for the project area was collected from a variety of sources to present a more complete picture of the community. The data applies to three 2020 Census Tracts (CT). However, CT 2.01 and CT 2.02 were previously one Census Tract in 2010 (CT 2). Therefore, all four project area geographies are shown in the figure below. The data by source is presented on the following pages.
