Briefly describe how the project will improve public riverport facilities and infrastructure, to capture the economic and trade potential offered by water transportation.: (Text limited for accurate printing. Attach additional pages as needed.)

As our business continues to grow, we are experiencing an increased demand for operational efficiency. The 20-ton hook/rotator will be primarily used for handling aluminum or paper bales with our 875 material handler. This device will increase efficiency when loading or unloading aluminum sow/tbar/ingot with our material handler crane to/from a barge. The material handler crane is an effective backup to our harbor crane for this operation, giving valuable redundancy to our overall operation and customer base. The Rotator will allow positioning of the lifting pan both inside the barge and on the dock to streamline the handling of product in a safe manner.

Select ONE: ☐ Applicant plans to use their own manpower, equipment, or materials on the project (Force Account).
☐ Applicant plans to competitively bid out all work related to the project.

RE: 20-ton Hook/Rotator

Dear Sir or Madam:

As our business continues to grow, we are experiencing an increased demand for operational efficiency. To meet this demand Owensboro Riverport is seeking financial support to purchase a 20-ton Hook/Rotator to improve safety, efficiency and productivity. This equipment will significantly enhance our ability to handle aluminum and paper bales.

The 20-ton Hook/Rotator will reduce the time required to safely handle material. It will enable more precise and controlled movement of materials. ORA is applying for financial assistance from the Kentucky Public Riverport Construction and Maintenance Fund established in July 2024.

Your consideration of this project is critical to improving the port to meet current and future transportation needs.

Sincerely,

Brian Wright
President/CEO

Statement of Work

The Owensboro Riverport Authority is seeking KPRCM funds for a purchase of 20-ton hook/rotator for Terminal operations.

This device will increase efficiency when loading or unloading aluminum sow/tbar/ingot with our material handler crane to/from a barge. The material handler crane is an effective backup to our harbor crane for this operation, giving valuable redundancy to our overall operation and customer base. The Rotator will allow positioning of the lifting pan both inside the barge and on the dock to streamline the handling of product in a safe manner.

Scope of Work

ORA will put out for bid the 20-ton hook/rotator and once bids are received and reviewed ORA will proceed with project.

(KRS 45A.110 & 45A.115)

Affidavit Effective for One (1) Year from Date of Execution

Instructions: Pursuant to KRS 45A.110 and 45A.115, a bidder, offeror, or contractor ("Contractor") is required to submit a Required Affidavit for Bidders, Offerors, and Contractors to be awarded a contract, or for the renewal of a contract. An authorized representative of the contracting party must complete the attestation below, have the attestation notarized, and return the completed affidavit to the Commonwealth.

Attestation

As a duly authorized representative for the Contractor, I swear and affirm under penalty of perjury, that that the Contractor has not knowingly violated campaign finance laws of the Commonwealth of Kentucky and that the award of a contract will not violate any provision of the campaign finance laws of the Commonwealth. For purposes of this attestation, "Knowingly" means that the bidder or offeror is aware or should have been aware of the existence of a violation. The bidder or offer understands that the Commonwealth retains the right to request an updated affidavit at any time.
