About the Mountain Parkway Expansion

The Mountain Parkway Expansion is a 46-mile transportation improvement project that will create a wider, safer connection between Eastern Kentucky and the rest of the Commonwealth. It is a key transportation project designed to close the only gap in a 400-mile, four-lane, high-speed corridor for commerce and mobility across Kentucky from Pikeville to Paducah. The project will widen 32 miles of the existing parkway to four lanes and extend the parkway by about 13 miles between Salyersville and Prestonsburg.
