Maysville Driver Licensing Regional Office Move to Larger, More Efficient Location

New location will allow for more licensing stations, room for Kentucky State Police driver testing

FRANKFORT, Ky. (Nov. 16, 2023) – Gov. Andy Beshear’s administration announced today that the Driver Licensing Regional Office at Maysville has moved to a larger, more efficient location.

The Kentucky Transportation Cabinet (KYTC) has designated the new location at 1918 Old Main Street in Maysville. It has five licensing stations, ample parking, plus space for the Kentucky State Police’s driver testing operation. The former office location, on Kenton Station Road in Maysville, was a temporary space with three licensing stations.

“We are always looking for opportunities to improve customer service,” said Commissioner Matt Cole of the KYTC Department of Vehicle Regulation.

The Maysville office is open Monday through Friday, 8 a.m. to 4 p.m. ET. Appointments can be scheduled online at drive.ky.gov, but the office also serves walk-in customers on a first-come, first-serve basis while slots are available.

Maysville is one of 32 regional offices around Kentucky, all of which can perform the full suite of driver licensing services. Kentuckians requiring in-person services can visit any regional office, regardless of county of residence. In addition, KYTC offers periodic “popup” licensing services in counties that do not have a regional office.

Kentuckians can “skip a trip” to an office by renewing or updating their present credential [online](#) or by [mail](#). To date, more than a half million Kentuckians have used remote options to renew credentials or to update with name or address changes.

Driver testing is conducted by Kentucky State Police and must be completed before a permit or license can be requested. Testing appointments can be made online at <http://kentuckystatepolice.org/driver-testing/>.
