CONDITIONS, MITIGATION, SPECIAL ISSUES:

The environmental document identified above has been reevaluated as required by 23 CFR 771.117. It has been determined that no substantial changes have occurred in the project, the project area, the regulatory requirements, or the environmental effects of the proposed action that would invalidate previous environmental approvals or significantly affect the quality of the human environment. Therefore, the original Administrative Action remains valid. It is recommended that this project be advanced to the next phase of project development.
